Turkish Sultan is Now in Brusa, Says a Moscow Dispatch

Bolsheviki Say British Moved Him There From Constantinople; Turkish Delegation May Propose to Allies Plebiscite Be Held in Smyrna Province.

London, May 7.—A Moscow wireless message to-day declares that the British Government has removed the Sultan of Turkey to Brusa, the ancient Turkish capital, south of Constantinople, across the Sea of Marmora, and about twenty miles inland from the coast of that sea. Special quarters have been arranged, the message asserts.

London, May 7.—There is reason to believe that Turkey will make a counter-proposal to the Entente when she is officially informed that Smyrna has been handed over to the Greeks, says a dispatch from Constantinople to The London Times.

COLEMAN HEADS KETTLE VALLEY

Winnipeg Man Elected President of Railway; A. C. Flumerfelt a Director

Winnipeg, May 7.—At a meeting of the directors of the Kettle Valley Railway Company, which operates 390 miles of railway in British Columbia, held in Montreal on May 5, D. C. Coleman, of Winnipeg, was elected president in succession to J. Warren, of Toronto, who retired on account of pressure of other duties.

The remaining directors of the company are: George I. G. Ogden, W. R. MacInnes and D. A. MacTier, of Montreal, J. J. Warren, of Toronto, and A. C. Flumerfelt, of Victoria.

The officers in charge of the road will hereafter report to the president's office in Winnipeg.

WATSON AWAIT'S JUDGE'S DECISION

Strain Tells on Confessed Bigamist Murderer in Los Angeles

Los Angeles, May 7.—The fate of James P. Watson, confessed murderer of Nina Lee Deloney, reputed murderer of four other women he had wed, and according to his own statement a bigamist by a score of marriages, rested to-day in the hands of Judge Frank R. Willis of the Superior Court.

To-day Watson paced his cell in the prison ward of the county hospital. He was worn and haggard and very uneasy as to whether he would be sentenced to be hanged or his life would be spared in exchange for his revelations. It was expected that Judge Willis would name experts to-day who would conduct the examination of Watson's sanity at once, so that they might be prepared to report Monday morning, the time set for sentence.

BUDGET SPEECH AT OTTAWA WEDNESDAY

Ottawa, May 7.—Sir George Foster stated in the Commons this afternoon that the budget would, God willing, be brought down on Wednesday next.

Committee on Pensions May Make Interim Report

Ottawa, May 7.—(Canadian Press)—The Special Committee of the Commons on Pensions and Re-Establishment is having a brief rest after the trying incidents of this week. Yesterday afternoon the Committee adjourned until Tuesday, when it is hoped to begin hearing evidence on the re-establishment end of the inquiry. The intervening time will be spent in preparing for the hearing of these witnesses.

It is intimated in some quarters that as a result of the situation which has arisen through the resignations of Lieut.-Colonel Peck, V. C., and Lieut.-Colonel Cooper over the Brig.-General McLean incident the Committee may make an interim report to the House on pensions before going ahead with re-establishment. The deliberations on the pension evidence had been pretty well cleared up when the alleged statement of General McLean was made and some

HATLESS SPANIARDS WEARING SANDALS MADE OUT OF HEMP

Cordova, Spain, May 6.—Via London, May 7.—A movement started in the surrounding districts among the wealthier people to go without hats and to wear sandals made of hemp in protest against high prices is spreading throughout Southern Spain. Hundreds have joined the silent demonstration, which is causing considerable perturbation among tradesmen.

TWENTY BRITISH MERCHANTS TOUR UNITED STATES

New York, May 7.—Twenty leading British merchants, representing the Drapers' Chamber of Trade of the United Kingdom, arrived here to-day on the steamship Celtic for a six weeks' American tour. During the tour they will attend the Western convention of the National Retail Dry Goods Association in San Francisco June 2 and 3.

D'Annunzio Factions in Fiume Have Sharp Battle

Trieste, May 6.—Via London, May 7.—(Associated Press)—A mutiny broke out in Fiume at five o'clock this afternoon. A fierce battle between the carabinieri and the Arditti is developing. Twelve men were killed and fifty wounded in the struggle. The troops involved are those of Gabriele d'Annunzio.

NO BAVARIANS IN THE RUHR REGION

Troops Withdrawn; Prussian Assembly Proposes Creation of Local Guards

Berlin, May 7.—The Bavarian troops which were in the Ruhr Basin have been withdrawn, according to The Nord Deutsche Allgemeine Zeitung. The Prussian Assembly has adopted proposals for the creation of local guards which will be connected with the state police.

Want More Money. Berlin, May 7.—A strike movement among the bank employees has broken out in Berlin. A meeting of the employees was held yesterday at which a resolution was passed for the delivery to the banks of an ultimatum in which the clerks declare they will close their ledgers on May 10 if allowances in compensation for the high cost of living are not granted.

Election. London, May 7.—Germany's Presidential election probably will be held late in August, according to a Berlin dispatch to the Exchange Telegraph Company. The Deutsche Zeitung is quoted as saying President Ebert will not seek re-election.

SEA-BABY GIVEN APPROPRIATE NAME

Corinne Day, Landed at Montreal, Will Remember Liner Corsican

Montreal, May 7.—The birth of a child to Mrs. E. H. Day of Regina, on board the steamship Corsican, while in mid-Atlantic, created much excitement, according to accounts given after the liner had docked here last night.

The baby was christened Dorothy Joan Corinne Ryman Day, the name being suggestive of her arrival, Corinne being a compound of the captain's name, Rennie, and the ship's name, Corsican.

Back to B. C. Captain K. R. Davies, who also was on board, is returning to his ranch in British Columbia, which he has not seen since 1914. His last duties overseas were of the most tragic in the aftermath of the war, namely, the exhumation of lonely soldier graves in France and Flanders. Captain Davies supervised the removal of the bodies of many thousands of Canadian soldiers from odd spots, sometimes in ditches, a yard from the roadside, to properly registered cemeteries, where crosses were erected over the remains and details of the dead soldiers inscribed.

DOUGH-MAKER IN VANCOUVER WAS VICTIM OF ATTACK

Vancouver, May 7.—Early this morning a vicious attack was made on F. Shelly, a dough-maker at one of the Shelly bakeries, by three unknown men, at least one of the latter suffering injuries, while Mr. Shelly had his coat slashed at the shoulders and his forehead opened by a knife cut. The bakers declare the assault was made by none of their men and express indignation. It is understood that the police have some promising clues to work on and hope to get the men before night-fall.

CLAIM BRITISH WILL NEGOTIATE

Bolsheviki Say Curzon Proposed Gen. Wrangel Deal With Them

Told British They Would Meet Wrangel and Other Britishers

London, May 7.—Great Britain is on the eve of negotiations with Soviet Russia, a Moscow wireless message to-day asserts.

Earl Curzon, the British Foreign Secretary, the message says, forwarded to M. Tchitcherin, Soviet Commissary of Foreign Affairs, a declaration in which direct conversations with General Wrangel, commander of the remnant of the Russian Volunteer Army, were proposed. Are Ready.

M. Tchitcherin, continues the message, replied to the British communication with the statement that the Soviet Government was prepared to meet the desire expressed in that communication and enter into negotiations with the British Government, or anyone that Government might indicate, concerning the question of hostilities in the Crimean sector, and that the Soviet was prepared to admit General Wrangel as well as British officers to these negotiations.

STATEMENT BY BRIG.-GEN. McLEAN

Says His Remark Before Commons Pensions Committee Was Misunderstood

Montreal, May 7.—Under a St. John, N. B., date line, The Montreal Star carries the following statement from Brig.-General H. H. McLean, M. P., regarding the resignation of Lieut.-Colonel Peck, V. C., from the Pensions Committee of the Commons and the causes which led up to it: "I am very sorry that Colonel Peck has seen fit to resign from the Pensions Committee, and that he has misunderstood what I said before that Committee. The official stenographer's report shows what I said. It was that 'most of the private soldiers who married servant girls were in that class who were earning their living before'."

FORMER FACTOR CALLED BY DEATH

Gideon Halcrow as Figure in Hudson's Bay Company Service

The Pas, Man., May 7.—The death of Gideon Halcrow at Rochester, Minnesota, following an operation, removes from life an old-time type of Hudson's Bay Company factor. Born in the Orkney Islands sixty-five years ago, he joined the company at the age of seventeen years, serving at York Factory, Norway House, Pelican Narrows, Grand Rapids and The Pas. His great height and long flowing beard made him a conspicuous figure known to Indians and whites throughout the North.

He had five sons in the war, one being killed in action and one seriously wounded. Besides a widow he leaves six sons and five daughters, all of The Pas.

New Westminster Crowns Its Jubilee May Queen

New Westminster, May 7.—All civic authority ceased in New Westminster at two o'clock to-day and even His Worship Mayor Johnson had to assume second place, for at that hour, in Queen's Park, Queen Evva MacMaster ruled supreme over her loyal subjects, this day of days being turned over to the younger generation, with adults, no matter what their official standing, taking a back seat.

Preceding the crowning ceremony at Queen's Park there was a parade unique in the history of Western Canada, in so far that the loyal subjects of Queen Evva to the number of several thousand marched from the downtown section to the park, where the royal throne for the 1920 May Queen had been installed.

A civic half-holiday had been proclaimed, and on this day of days New Westminster was the Royal City in the broadest sense of the term. This being the golden anniversary of just half a century of such days in New Westminster, there was an added interest in the event, and while in former years this particular celebration has ever been an outstanding feature in the Royal City, to-day, through every phase of the pretty and quaint festivity, matters were carried out on a far more elaborate scale.

MR. CROMIE ON THE JOB

Ottawa, May 7.—(Times Special)—The Ottawa Journal foretells the disallowance of the Act concerning the Dolly Varden Mine which was passed by the British Columbia Legislature at its recent session, and publishes an article endorsing that course. R. J. Cromie, proprietor of The Vancouver Sun, which has been supporting the case of the former owners of the Dolly Varden Mine, is here working for the disallowance of the Act.

NOT FOR DAYS YET

Ottawa, May 7.—The petition for disallowance of the British Columbia statute regarding ownership of the Dolly Varden Mine was again before the Cabinet to-day. Final decision in the case is unlikely to be reached for a few days.

INTERFERENCE IS NOT WELCOMED

London Papers Score Irish-American Congressmen Who Sent Message

London, May 7.—Only two of this morning's newspapers comment on the memorandum sent by United States Congressmen to Premier Lloyd George regarding the Irish situation, the Foreign Minister announced in Parliament to-day in response to questions relative to the situation. Elementary Maxim.

"It is an elementary maxim of the foreign policy of most civilized nations that one state department should not interfere with the internal affairs of another nation," says The Daily Graphic, which seems to view the memorandum as a political move. "No legislator of any country has the right to imperil the good relationship existing between his nation and any other merely because he wants to attract votes to himself."

The newspaper declares Irishmen have the same reason if wronged that is given any other citizen of the United Kingdom, and it points to the wholesale arrest of Bolsheviki in the United States as analogous to the situation in Ireland.

COMMERCE BOARD'S POWER IS TESTED

Supreme Court Hears Argument Whether It Can Regulate Prices

Ottawa, May 7.—A reference to the Supreme Court of Canada to test the power of the Board of Commerce to order retail clothiers of Ottawa to sell only at a profit which is reasonable and just in the opinion of the Board is being heard to-day. The order, which has not been served on the clothiers yet, constitutes a test of power, and the Supreme Court is asked to judge whether such an order is within the power of the Board.

W. N. Tilley, K. C., representing the Manufacturers' Association and other organizations, argued that the Parliament of Canada had not the power to compel the disposition of property within a province for the benefit of the whole country, or to prevent the holding of property for a rise in price.

Not Tested. The wheat of Alberta, for instance, could not be controlled by a Federal board, under strict application of the British North America Act, or sale of it be compelled at a fixed price except by order of the Provincial Parliament. Reminded that this was being done, Mr. Tilley remarked that the legality of it had not been tested, that was all.

W. F. O'Connor, K. C., will present his case for the Attorney-General of Canada this afternoon.

TWO FLORENCE PRIESTS ARRESTED

Florence, Italy, May 7.—Two priests were arrested here yesterday on charges of having stolen a bust of Antonio Canova, the celebrated Italian sculptor; an altar by Luca Della Robbia, the fifteenth century sculptor, and other art treasures from the Abbey of Arezzo. Copies of the original treasures were substituted by the thieves. The police have recovered the altar.

Irish Police Want Better Backing by Government Forces

Belfast Correspondent of London Star Says Men of Constabulary Go On Strike If Government Does Not Give Them Greater Protection.

London, May 7.—The Star's Belfast correspondent says to-day he has learned from an authoritative source that arrangements are contemplated for a general strike of the Irish Constabulary in the event of the Government being further unable to take necessary steps to protect policemen in the execution of their duty.

Mullingar, Leinster, Ireland, May 7.—Two hundred laborers forced an entry into the Council chamber to-day, where a discussion was in progress on the question of road repairing contracts, and demanded that direct instead of contract labor be used. After a free fight the Council complied with the laborers' demands.

HOLLAND NOT YET PLANNING TRADE WITH BOLSHEVIKI

The Hague, May 7.—Holland will not resume trade with Soviet Russia until the League of Nations acts in regard to resumption of relations with the Bolsheviki, the Foreign Minister announced in Parliament to-day in response to questions relative to the situation.

STRIKE IN FRANCE IS UNCHANGED

Faction of Railway Workers' Federation Favors Calling Off Strike

Paris, May 7.—There was no apparent change in the strike situation in this city and throughout France this morning. During the past day or two a large number of extremist railroad workers were arrested, but many of these have been discharged.

The executive committee of the Railway Workers' Federation held a stormy meeting last night at which it is understood, there was strong sentiment in favor of calling off the strike if it could be done without appearing to capitulate to the Government.

EDMONTONITES ARE ACCIDENT VICTIMS

Flooding of Waterworks House Cuts Off Lights and Street Cars

Edmonton, May 7.—Through the removal of a cap on the intake pipe at the waterworks pump house without the intake valves at the river first being shut off, the pump house pit was flooded this morning to a depth of eight feet. As a result the city of Edmonton is paralyzed. There are no street cars, lights or water, and in addition all utilities are without power and water.

BORDEN BACK IN OTTAWA NEXT WEEK

Ottawa, May 7.—According to advices received here, Sir Robert Borden will be back in Ottawa next week. It is not expected that he will return by Sunday next as newspaper dispatches from Asheville, N. C., indicate, although Sir Robert has not intimated the exact date of his arrival in Ottawa.

Battle For Possession of Kiev Still Raging

Warsaw, May 6.—Via London, May 7.—(Associated Press)—Bolshevik troops fighting in the defence of the city of Kiev have strengthened their resistance considerably during the last twenty-four hours. The battle for the possession of the city still is raging, according to latest dispatches. The fighting is said to be particularly severe northwest of the city.

It is assumed the Soviet army is bringing up artillery from east of the Dnieper River.

Wireless dispatches from Lyons say Kiev has been taken by the Poles, the message says. "On both May 4 and May 5 the Soviet Government authorities were in direct telegraphic communication with Kiev, which was then in the hands of the Bolsheviki."

Windsor, Ont., May 7.—Mayors of four border municipalities, Walkerville, Ford, Sandwich and Windsor, decided today to submit a proposal for an amalgamation at the municipal elections in January.

for an amalgamation at the municipal elections in January. The combined population is estimated at 40,000. The greatest difficulty appeared in the selection of a name, but the meeting favored the suggestion that each community retain its present name under one municipal government.

RAILWAY BOARD CANNOT INTERFERE

Cannot Make Lines Accept Prepayment For Goods Shipped to U. S.

Ottawa, May 7.—Canadian exporters will be obliged to ship freight to the United States charges collect as long as the Canadian railways refuse to accept prepayment of such charges. The Railway Commission has issued an order dismissing, for "want of jurisdiction over the subject matter thereof," the complaints presented before the Commission on March 6 in Toronto, and on March 16 and 17 in Ottawa, by the Boards of Trade of Toronto and Montreal, the Canadian Manufacturers' Association, and a score of Canadian exporters protesting against the action of Canadian railways in ordering their agents not to accept prepayment of freight charges to the United States on account of the adverse exchange situation. The judgment of the Railway Commission, which will give the precise reasons for its dismissing the application of the exporters has not been handed down but the order implies that the Commission finds that the matter does not come within its jurisdiction.

Some Relief. United States railroads may shortly rescind their order demanding prepayment of freight charges on shipment from the United States to Canadian points, following representations of Canadian importers to the Canadian Railway Commission that an addition of about ten per cent. was thereby being made to rates on the Canadian haul through the adverse exchange. It is generally recognized in Canada that the United States roads are entitled to their full proportion of earnings on traffic in the United States—in other words that they are entitled to payment in up to the Canadian border. The effect of the enforced prepayment on exports to Canada is that importers here are paying in United States currency for the Canadian part of the haul as well, and the United States roads have agreed to modify their order so that payment can be made in United States currency for the first part of the haul and in Canadian currency for the haul in Canada. It is understood that the Canadian Railway Commission is negotiating with the Interstate Commerce Commission in the matter.

FURTHER DISCUSSION OF FRANCHISE BILL TO WOMEN OF MIDDLE AGE

Commons Informed Government Will Consider Certain Suggested Changes

Ottawa, May 7.—The House of Commons spent a couple of hours on the Franchise Bill yesterday afternoon, but no further clauses were passed. The debate turned on enfranchisement of women of enemy alien birth, naturalized by marriage to British subjects. Under the original bill, such women were not given the vote. The Government brought down an amendment to meet their case, but it was criticized yesterday afternoon as being insufficient. W. D. Euler, North Waterloo, who first raised the question in the House, declared the Government was trying to reconcile two irreconcilable things, and moved that the whole sub-section in question be struck from the bill. Protest.

There was protest from Opposition members against the wife of a British subject being required to go before a judge to get a certificate. Naturalization of a British subject carried with it naturalization of the wife, declared Lucien Cannon, Dorchester. "You cannot have the husband of one nationality, the wife of another, and the children of a third nationality," he added. Why should British subjects, asked F. J. Johnson, of Little Mountain, be required to travel many miles to secure a certificate from a judge? To this Hon. Hugh Guthrie replied that the Government was willing to consider the suggested changes in the language of the amendment. The amendment was still under discussion when the committee rose. Ice Breaker.

In the evening the House was in committee on supply on the marine estimates. There was discussion of the sale of the ice breaker "J. D. Hazen" to Russia. William Duff, Lunenburg, declared that Vickers, from a reliable source he understood, had contracted to supply the vessel to the Canadian Government for \$1,600,000, had sold it to Russia for \$1,400,000, "this being gross negligence on the part of the present Minister's predecessor."

Hon. C. C. Ballantyne replied that the vessel had been sold through the British Government. He called to see where Vickers' Company came into the transaction. No Cruisers.

Ottawa, May 7.—In the debate on the estimates in the House last night, William Duff questioned the Minister of Marine regarding a newspaper dispatch to the effect that the Federal Government was co-operating with Ontario in placing swift motor cruisers on the Detroit River to prevent shipment of liquor from Canada to the United States. If we were to have prohibition in Canada, Mr. Duff thought it would be better to leave all avenues of escape open and allow liquor to be shipped out freely. He asked if the Minister had taken this step. Ballantyne replied that the Department had taken no action. A vote of \$245,000 for the meteorological branch was agreed to.

In the Senate.

Ottawa, May 7.—(Canadian Press).—Every day postponed in the Government's taking over of the Grand Trunk Railway was saving the estimated \$80,000, Senator Casgrain, of Montreal, claimed in the course of debate in the Senate yesterday. The bill passed the committee stage before the Senate. Senator Casgrain forecasted that under Government operation of the Grand Trunk proper there would be a saving of \$30,000,000 for the present year, and Senator Bostock said that the agreement was placing upon the country vast liabilities. Senator Casgrain asked that the Government should add to the agreement a provision that pension rights of Grand Trunk employees should not be affected by the change of 1910, and Senator Robertson said the Government intended to safeguard the interests of these men before the negotiations were closed.

HOHENZOLLERN MAY SUE FOR FUNDS

London, May 7.—A Berlin dispatch to The London Times says it seems probable that the whole question of financial arrangements with the Hohenzollern family will be allowed to drop, as the present Assembly shows no inclination to bring it forward again for discussion. The dispatch adds that the only course open to the former Kaiser will therefore be action in the courts.

HEART SO BAD WAS NOT SAFE TO LEAVE HER ALONE

Miss Eva P. Yateman, Krugersdorf, Ont., writes: "I feel that I must write and tell you of the great benefit I have received from Milburn's Heart and Nerve Pills. About four years ago I was taken terribly bad with my heart, I was down in bed for about six months. I doctored with two different doctors and seemed to get better, although the fainting spells would not leave me. I would take such terrible falls, wherever I was, that it was not safe to leave me alone at any time. At last I decided to resort to proprietary medicines and took several different kinds, but seemed to receive but little benefit from them. One day noticing the advertisement of Milburn's Heart and Nerve Pills I decided to try them and before I had taken more than two boxes I could see they were helping me. I have taken about ten boxes, and am almost cured of those terrible spells. I sincerely feel that Milburn's Heart and Nerve Pills are 50¢ a box at all dealers or mailed direct on receipt of price by The T. Milburn Co., Limited, Toronto, Ont."

CROSS CURRENTS IN BRITISH POLITICS

London, May 7.—An interesting reflex on the political tendencies of the moment is presented in the result of the election of the general committee of the National Liberal Club, where a vigorous effort was made to secure the election of Lloyd George supporters. The ballot, however, has been a triumph for the independent Liberal nominees, which is believed to be largely due to the solid voting of the country members. Meanwhile the Constitutional Club proposes to delete the words "Conservative" and "Unionist" from its

BOLSHEVIKI WERE BEATEN BY JAPANESE

4,000 Were Defeated in Siberia by Japanese Division on April 29

(Tokio, May 3.—Delayed)—The Japanese Fourteenth Division on April 29 defeated Bolsheviki near Khabarovsk, in Siberia, near the Manchurian frontier. It was semi-officially announced to-day.

A dispatch received in London, April 27, said a Russian firm in Tien Tsin, China, had received a cable announcing annihilation of a Japanese division in the Khabarovsk district. The dispatch added that no official statement could be obtained.

Aggressive actions by the Bolsheviki at Khabarovsk, Nizhnekolensk and Vladivostok were given by the Japanese commander as the cause of the seizure of Vladivostok early in April by Japanese forces.

Approval Not Needed.
London, May 7.—The British Government considers the action taken by the Japanese in Siberia is not of a nature requiring the approval of the Allies. Mr. Bonar Law made this statement in the House of Commons yesterday in reply to a question as to whether the Japanese policy had the approval of the Allies.

PRAIRIE LANDS FOR SOLDIER SETTLERS

Ottawa, May 7.—Practically the whole of the 69,000 acres of Indian reserve lands acquired by the Soldier Settlement Board have been sold to soldier settlers. There are, however, in some of the reserves, a few farms to be disposed of. The Government paid the Indians from \$10 to \$20 an acre for the land, and the Soldier Settlement Board disposed of it at cost.

In the case of the Bobtail Reserve, 6,830 acres, the purchase price was \$83,594. The Board blocked it off into farm units and appraised each unit according to its comparative value. The aggregate selling price was \$33,596.84, being \$2.64 in excess of the amount paid to the Indians for the whole reserve.

NEW WESTMINSTER CROWNS ITS JUBILEE MAY QUEEN

(Continued from page 1.)

On one or two occasions the then leading spirits of the celebration, tired of their efforts, and seriously considering whether it was worth while to continue the custom, were on the point of throwing up the work. Like the torch of "Pioneers Field" the work of staging the annual event was thrown upon other shoulders—first the Hyacks, then the City Band, and later a committee of citizens which retains its numbers year after year. New members signing on as the old ones drop out.

To-day finds the May Day ceremony on a firmer foundation than ever. It is the one bit of Old England, other than the Black Anvil Battery, which the Royal City still retains.

In a Carriage.
To-day's event was arranged to conform as closely as possible to the customs in vogue way back in 1870. The Twentieth Century automobile, necessary as it is in the pleasure and business life of the present day citizen, was relegated to a back seat in the parade. True, the gasoline propelled vehicle was present, but not in the first section of the parade. The equine and carriage reigned supreme with the May Queens. For the first section consisted of the royal carriage, accompanied by Boy Scouts, Sea Scouts, Girl Guides, and Scouts, High School Cadets, a detachment of the Royal Canadian Mounted Police, and the children of the various city and district schools, all on foot. The second section consisted of an automobile parade, the smaller children being looked after in this connection.

At First Event.
J. J. Johnston, the present Mayor of the Royal City, and Master of Ceremonies to-day, was present at the first May Day event in 1870, though he had to be carried there in his mother's arms, being an infant. A photograph of the 1870 event shows that there were then fewer than thirty boys and girls in the town for it may be taken for granted that they were all present, even though as was the case with the present Mayor, they were carried by their mothers.

The first May Pole was erected at Sapperton, on the site of the old Government Hotel. The May Queen, Miss Nellie McColl, who afterwards became Mrs. E. S. Scouler, and whose demise occurred some two years ago, was enthroned upon the hand-pump fire engine which was the sole protection against fires the city then boasted. The old hand reel of hose, which completed the equipment of the fire fighters, also figures in the photo.

Five Streamers.
It is noteworthy that the May Pole carried only five streamers, which indicates the smallness of the number of children able to participate in the dance which from early days of British history has been associated with May Day celebrations.

Mayor Johnston has not missed a

single one of the May Day fetes since they were inaugurated.

Of his memories of the earliest of May Days one in particular stands out. The Mayor recalls that every boy and girl who took part in the sports which then, as now, feature the occasion, was given a prize, and the prizes generally took the substantial form of a \$5 gold piece.

"Nowadays the children run for nickles. Then they got a five dollar gold piece whether they won or not," said the Mayor during the course of a conversation a couple of days ago.

TO EXPEDITE AFFAIRS.

London, May 7.—All American consuls in the British Isles will meet in London on May 18 and 19 to work out plans for the more expeditious and efficient handling of the affairs of Americans in the United Kingdom. The meeting is deemed necessary

by Robert P. Skinner, the Consul-General in London, owing to problems arising from the enormous increase in American shipping coming into United Kingdom ports, export restrictions and other affairs, which have fallen on the consuls as a result of the changed conditions since the armistice was signed.

FIREBRANDS.

Certain publications and reports from the Old Country remind us that all the firebrands endangering the relations between the two great English-speaking nations are not in the United States.

In neither case do these people represent more than a minor fraction of their compatriots; the vast majority, of course, sincerely desire the re-establishment of peace and harmony and are quite conscious of the fact that continued hostility between the British Empire and the United States would involve both in ruin and the world generally in disaster.

Fomenters of discord between the two countries are more dangerous than the social agitators whom both countries have been deporting. Henry Berkman and Emma Goldman were not nearly the menace to the United States that Hearst is.

Canada is more concerned for the friendly relations between the Britannic and American commonwealths than any other part of the Empire. She has more vital interests at stake. Along the international border from sea to sea there is not a solitary fortification and the only uniforms in evidence are those worn by customs and immigration officials.

During the presidential election a lot of nonsense will be talked on the hustings which will be irritating to British people; it is impossible to muzzle ignorant blatherskites on occasions of this kind, but we would be as foolish as they if we attached any importance to their utterances.

SIR HAMAR RETURNED.

Sir Hamar Greenwood's re-election at Sunderland was looked upon as a foregone conclusion, although not even the Prime Minister himself would have prophesied such a signal demonstration of popularity for the coalition Government in a constituency so essentially industrial.

Just as rapidly as the pendulum began to swing against the Government very soon after its re-election—with a preference for the Labor candidate—so did it change its course immediately upon the prospect of the early advent of a Labor Government.

COMPARATIVE COSTS.

According to a report of the United States Bureau of Labor Statistics the cost of living, including food, clothing, fuel, heat and light and sundries, in the United States, increased 94.8 per cent. from July, 1914, to March, 1920.

It is interesting to compare these statistics with those embodied in the March report of The Labor Gazette, issued by the Canadian Department of Labor. This report unfortunately does not make any reference to the cost of clothing or sundries, its returns being confined to food, fuel, rent and light.

\$7.68 in July, 1914, to \$15.98 in March this year, approximately the same percentage of increase as in the United States.

The average rent increase has been less in Canada than in the United States, but the advance in the family's weekly fuel bill in this country was much greater than in the States, the percentage of increase being 73 per cent. in Canada against 49 per cent. on the other side of the border.

While the cost of living has not shown any radical preference between the two countries, we would imagine that if there has been any difference it is in the higher percentage of increase in the United States. The average family budget there in 1914 was smaller than it was in Canada, and the pendulum across the line, therefore, has had a longer swing.

MORE LIGHT NEEDED.

At this range it would appear the Amritsar incident is not close judging by the remarks of General Dyer on the subject as reported in a cable dispatch yesterday. The General is a soldier of many years' experience in India, and his knowledge of native sentiment and native aspirations should have had a restraining influence upon him unless extraordinary circumstances compelled him to take the course he did.

NOTE AND COMMENT

According to an official statement just compiled one-half of the members of the British House of Commons have not so far opened their lips, even to the extent of putting a question. On the other hand, during 1919 Colonel "Josh" Wedgewood spoke 230 columns, Sir Frederick Banbury, 190; Commander Kenworthy, 159, and Mr. Hogge, 245.

In a recent issue of The Jamaica Gleaner an editorial writer complains bitterly of the cost of living in that part of the world. For instance, beef at fifteen cents a pound is regarded as an outrageous figure even in these times.

There is a Minister of the Gospel living in Dundee, Scotland, who is appealing through the columns of The Scottish Prohibitionist for gifts of food, clothing and money which "will be gladly received and forwarded to Berlin." The gentleman in question already has made his peace with the Germans by contributing articles to The Berliner Tageblatt vilifying Great Britain's part in the war and lauding the Germans to the skies.

From Toronto comes the suggestion that American publications may be withdrawn from Canadian news stands in the early future by reason of the shortage of paper. How would it do for some week-end editions, for instance, to lop off about two or three score of their pages until the conditions of the paper market improve?

Sir Robert Worne, President of the British Board of Trade, says the present state of British Trade shows that the nation can go forward with the greatest confidence. Therein lies the secret of John Bull's success in the field of commerce and industry. He does not look for trouble; but if he must tuck up his shirt sleeves he is always particularly nimble in clearing away the mess.

OTHER NEWSPAPERS' VIEWS

WAGES IN TARIFF-PROTECTED INDUSTRY.

Interesting evidence is now available, however, to throw some light upon these increased costs of textile production in so far, at least, as wages are affected. Unfortunately, this evidence pertaining to labor costs was not available in June, 1919, at Ottawa, while the official investigation into the high cost of living was in progress.

For the woollen textile industry the following classification was made according to weekly wage payments to specified groups of employees, as at December 15, 1918.

Table with 3 columns: Group of Earnings, Males, Females. Rows include Under \$5 per week, From \$5 to under \$10, From \$10 to under \$15, From \$15 to under \$20, From \$20 to under \$25, Over \$25 per week.

STATEMENT BY BRIG.-GEN. McLEAN

(Continued from page 1.) Misunderstood.

"When the statement referred to was made I was opposing the giving of increased pensions, or full pensions, to widows less than forty years old who were in good health. My remark has been misunderstood, and I have been charged with stating that the majority of private soldiers' widows had been servant girls. I did not make that statement, and certainly never entertained such an idea. It is easy for hearers to misunderstand a statement, but the official stenographer's report is absolutely correct."

In Ontario House. Toronto, May 7.—In the Legislature yesterday afternoon Brigadier-General McLean's statements at a Pension Committee meeting in Ottawa regarding soldiers' wives came in for heated criticism from Sergeant-Major Macnamara, of Riverdale. Referring to General McLean's statement that "the private soldiers' wives were before their marriage, and of the servant class," Sergeant-Major Macnamara declared this to be "the contemptible utterance of a man who has disgraced the dignity and honor of his military profession."

Praised Women. He praised the work of the women of Canada and expressed pleasure at the resignation of Lieut.-Colonel Peck, V. C. from the Pensions Committee as a protest against General McLean's utterances. "I don't know to what political party General McLean belongs; whether he is Liberal or Conservative, Labor or United Farmer, but I say that he has dishonored the military profession," said Sergt.-Major Macnamara.

A Protest. Pittsburgh, Pa., May 7.—The International Protestant League through its headquarters here, last night expressed opposition to the action of "the eighty-eight Irish-American Congressmen" who on Tuesday sent a protest to British Government officials against the holding of Sinn Fein prisoners without trial.

Barred. Melbourne, May 7.—Entry into Australia of a United States pamphlet entitled "Bond Certificate for the First Loan of the Elected Government of the Republic of Ireland" has been prohibited by the Federal Government.

CANADIANS ENTERED IN BISLEY CONTESTS

Rifle Team to Be Picked From Best Shots in Provinces; Will Leave on June 12

Ottawa, May 7.—For the past forty-five years a Canadian rifle team has played an important part in the competitions of the National Rifle Association in England and arrangements are at present well under way for the dispatch of the usual team to shoot at Bisley in July next.

The team this year will be selected by the various provincial rifle associations, each having been allotted a percentage of the team. Most of the provincial associations are conducting a special match for the selection of their representative, and while this may not insure the strongest possible team from a shooting standpoint, it will be very representative of Canada and the military forces of the country.

Leaving on June 12. The team will sail from Montreal, on the steamship Corsican, on June 12, arriving in England in sufficient time to have about 10 days' practice

GEN. SIR F. WYGRAM DIES IN ENGLAND

London, May 7.—(Canadian Associated Press)—The deaths are reported of General Sir Frederick Fitz Wygram, of the Scots Guards; Hyslop Bell, founder of The Northern Echo; Wooliscroft, Rhead, an artist; Colonel George Chamier, Brigadier-General Breeks, Royal Artillery; John Chapman, chairman of the Manchester City Football Club; Fred Geeson, a noted Leicester bowler, and Lieut. Arthur Llewellyn, of Somerset.

The publication or rejection of contributions is a matter entirely in the discretion of the Editor. No responsibility is assumed by the paper for MSS. submitted to the Editor.

BRIG.-GENERAL McLEAN'S REMARKS.

To the Editor—There is a great deal of resentment over the remarks of Gen. McLean, and rightly so. It has occurred to me that in view of the treatment meted out to the wives and mothers of our soldiers that, may be the opinion of many of the people who have had anything to do with administering pay or funds of any kind—only they have not said so. I notice Col. Peck has resigned from the Committee, but would not have done so if Gen. McLean had apologized. We could accept no apology from such a man as that. In future instead of teaching loyalty and patriotism to our children it might be as well to impress upon them the stigma attached to their families for being a soldier. How much more are we going to put up with, I wonder?

A SOLDIER'S WIFE AND— A KINDLY OFFER.

To the Editor—I see by the London Daily Mail that crowds of Canadian people are likely to visit this country during the Summer and many contemplate the pleasure of attending the pageants at Plymouth Pilgrims. If I can make any inquiry on behalf of any prospective visitors in this locality about apartments I shall only be too happy to do it. I am not connected with any business but merely live retired at this beautiful town.

RE PENSIONS TO SOLDIERS' WIDOWS.

To the Editor—Permit me a small space in your valuable paper to pass my comment on remarks made by Brig.-General H. H. McLean. In your issue of May 4, I saw a remark made by the above officer to the effect that the average wife of a private was of the servant girl class. While my wife does not happen to be of the servant girl class

**POLICE COMMISSION
HEARS OF CHARGES**

Allegation That Mayor Allowed Raffles Aired by Delegation

To complain that Mayor Porter had violated the law in allowing the raffle of a German helmet, a delegation of ladies and gentlemen waited upon the Police Commission yesterday. The Commission, of which the Mayor is chairman, was asked the following questions, which it promised to answer in due course:

1. Is it the duty of the Commission personally or by subordinates to see that the laws and ordinances are duly observed?
 2. Is it incumbent on the Commission, having knowledge of premeditated offences against the statute, to take preventive measures?
 3. The Commissioners, having personal or acquired knowledge pertaining to offences committed against any law or ordinance, is it obligatory that such offenders be proceeded against as the law directs?
 4. Are the Commissioners vested with discriminatory or discretionary privileges in the enforcement of the law?
 5. Has the Chief of Police untrammelled initiative in the execution of his duty?
 6. The Chief of Police, having information submitted to him of offences taking place, has he any alternative to prosecuting the offenders?
- The delegation's purpose was to press charges advanced by Clarence Harris, whose allegations against the Mayor recently were before a meeting of the People's Prohibition Association. Those composing the delegation included Mr. Harris, Mrs. Harris, William King, Rev. W. D. Spence and Mrs. McKeown.

Saanich Council, However, Adheres to Royal Oak Option

Three proposals for the suggested Saanich Health Centre were before the Council last evening. In addition to the three-acre site on the Rithet property, upon which the Council had an option until Saturday, the Council was offered a section of the Bridgman estate on Christmas Hill, and a site at Oak Street.

The Bridgman property was considered perhaps the best location, apart from price, of the three sites in proximity to the city. However, it was offered at \$800 an acre, whereas Mr. Gregory Allen has agreed to the Royal Oak site being transferred at \$450 an acre, being part of the property he purchased from the Rithet estate, at the cost price, and also giving the municipality free choice of the three acres to be acquired.

The Council therefore by resolution decided to take up its option on the Royal Oak site, and named a committee to select the three acres.

Gordon Head Lighting.

The Council held that the proposal for the lighting of Gordon Head was a matter to be taken up by the residents. The report will be placed before the meetings which will be called in the near future at Gordon Head to consider the water and sewers by-laws, which are shortly to be placed before the ratepayers.

The Council decided to receive and file the communication from C. Hiram Babcock with regard to the proposed burial park on the Rogers property, a plan of which he had filed at the last meeting.

The Northeast sewer connection, about which it was pointed out erroneous statements were made in the City Council on Monday, came up in an application for connection to be made with the sewer by G. H. Walton, but the Council declined to take any responsibility on the matter. The applicant wanted connection into the Normal School sewer, which empties into the Northeast sewer.

**SAGE TEA DARKENS
HAIR TO ANY SHADE**

Don't Stay Gray! Here's an Old-time Recipe that Anybody can Apply.

The use of Sage and Sulphur for restoring faded, gray hair to its natural color dates back to grandmother's time. She used it to keep her hair beautifully dark, glossy and attractive. Whenever her hair took on that dull, faded or streaked appearance, this simple mixture was applied with wonderful effect.

But brewing at home is messy and out-of-date. Nowadays, by asking at any drug store for a bottle of "Wyeth's Sage and Sulphur Compound," you will get this famous old preparation, improved by the addition of other ingredients, which can be depended upon to restore natural color and beauty to the hair.

A well-known downtown druggist says it darkens the hair so naturally and evenly that nobody can tell it has been applied. You simply dampen a sponge or soft brush with it and draw this through your hair, taking one strand at a time. By morning the gray hair disappears, and after another application or two, it becomes beautifully dark and glossy.

Mr. John Atkins has retired after forty-two years as a postman at Walton-on-Thames. He carried out his duties during the whole time without his left hand, which he lost through an accident before he joined the service.

A BEDTIME STORY

UNCLE WIGGILY AND BILLIE'S BALL.

By HOWARD R. GARIS.
 Copyright, 1920, by The McClure Newspaper Syndicate

Uncle Wiggily and Jimmie, the duck, went one day to call on Billie Bushytail, the squirrel, who had the toothache.

"I'd like to play ball," answered Billie.

"Well, I don't very well see how we can play ball in the house," said the rabbit gentleman. "We might break some of mother's things."

"Now, Billie," said Uncle Wiggily, when Mrs. Bushytail had gone out

URGES WOMEN TO BURY BARLEYCORN

B. C. Methodist Women Addressed by Leading Prohibitionists

Urging every woman to register and use her vote for the purpose of embalming, cremating and burying John Barleycorn, W. Fortune, secretary of the People's Prohibition Party in British Columbia, addressed the afternoon session of the Methodist Women's Society yesterday. The speaker's sentiments were echoed by Mrs. C. C. Spofford, who extended the greetings of the Victoria Prohibition Association and the Baptist Women's convention to the gathering.

The remainder of the afternoon session was occupied with the reports of Circles and Bands. Mrs. (Dr.) Spencer, of Port Simpson, spoke on the subject, "Are Missions Bands Worth While?" and the delegates of the Mount Pleasant Band of Vancouver, gave an interesting paper on keeping boys interested in mission band work.

A titling demonstration by the Circles of Victoria along the lines of Christian stewardship made a deep impression. A pleasing feature of the session was the chorus by the children of the Oriental Home, who demonstrated what could be done by careful and patient training.

Following the devotional exercises, which opened the morning session, the regular business department of the society was received and a conference, conducted by Mrs. Abell, ensued, the following subjects receiving attention during the discussion: "Department of the Stranger," in charge of Miss K. Nixon; "What and Why is the Rest Fund," dealt with by Mrs. F. C. MacDonald; "Problems of the W. M. S. in Union Churches," discussed by Mrs. C. A. Wickens; collections for delegates' expenses, presented by Mrs. E. M. Derbyshire; and a talk on the National Methodist Training School, by Mrs. A. N. Millar. The morning session concluded with a brief devotional service conducted by Rev. J. L. Batty.

Garden City Institute.—The Garden City Women's Institute met yesterday afternoon at the home of Mrs. Spurr, the meeting being the first open-air gathering of the season. Mrs. Fryatt, the president, was in the chair. Mrs. Birckhead gave an excellent report of the joint meeting of the Strawberry Vale and Garden City Institutes. Those who had been present at that meeting voiced their appreciation of Mrs. Watts' address, concurring in the sentiments expressed by her, and deriving much help and inspiration from her suggestions. Mrs. Robinson gave an instructive talk on "The Practical Kitchen," offering many suggestions to the housewife anticipating building a new home and many useful hints of value in enhancing the convenience of the present kitchen. At the conclusion of the business, a pleasant social hour was spent over the tea-cups.

Local Council of Women.—The regular monthly meeting of the Local Council of Women will be held on Monday, May 10, at 2:30 in Room 202, Union Bank Building. Many matters of importance will come up for discussion and a good attendance is hoped for.

Billie. "That is soft and if it hits the piano it won't scratch it."

They were soon having a jolly time. Billie threw the ball to Jimmie and the boy duck missed it. The rubber ball rolled out in the kitchen, and Jimmie waddled after it. And just as he did, the door burst open and in came the Bazooopa after Uncle Wiggily's souse.

"Oh, if I only had my rubber ball, I could throw it at this unpleasant creature and make him let Uncle Wiggily alone," thought Billie. But the ball had rolled out in the kitchen, near the sink, and Jimmie, the duck, had gone after it.

"A hard baseball would be better to throw at the Bazooopa," thought Billie. "But alas! I have neither."

Uncle Wiggily still had his ears covered with his paws, hoping he might save his souse, and the bunny was wishing the policeman dog would come along and arrest the bad Bazooopa when, all at once, Jimmie, the duck, came in from the kitchen, and Jimmie had Billie's ball.

"Oh, what's going on here?" asked the duck boy.

"Nothing is going on, but something is coming off!" snapped the Bazooopa. "Some souse is coming off Uncle Wiggily's ears!"

"Is it? Well, I guess not!" bravely quacked Jimmie.

"Why not? Who will stop me?" demanded the Bazooopa.

"I will!" still more bravely quacked Jimmie. With that he aimed Billie's rubber ball at the bad animal, and as Jimmie squeezed the ball out shot a stream of water. Right in the Bazooopa's face the water splurted.

"Oh wow! Oh stop! Don't do that! You know I'm afraid of water!" howled the Bazooopa, dancing up and down.

"Of course, I know it!" quacked Jimmie, and he pressed the rubber ball harder and harder and sprayed so much water on the Bazooopa that the crafty creature had to jump out the window to keep from being drowned.

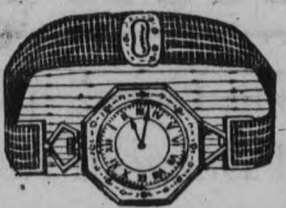

"Oh, Jimmie!" said Uncle Wiggily, when he saw that the bad animal was gone. "You saved my souse."

"I'm glad I did," quacked Jimmie.

"When I went out to the kitchen to get Billie's ball I heard the Bazooopa come in. I knew he hated water so I filled the ball at the sink and doused him."

Wasn't Jimmie clever? You think so. And if the pineapple pie doesn't jump out of the gas stove before it's baked, and go sliding down hill with the piece of cheese, I'll tell you next about Uncle Wiggily and Jackie's house.

TO HOLD DANCE TO-NIGHT

Margaret Rocks Robertson Chapter to Give Part of Proceeds to I.O.D.E. War Memorial Scheme.

Final plans for their dance to be held at the Alexandra Club ballroom to-night were completed at the meeting of the Margaret Rocks Robertson Chapter, I.O.D.E., held yesterday afternoon. The regent, Mrs. J. Gordon Smith, reported on the recent annual meeting of the Provincial Chapter in Vancouver. Miss Ruth Cochrane for the Local Council of Women and Miss Therese Dorrell for Echoes. A donation of \$5 towards the upkeep of soldiers' graves was voted by the meeting, and Miss Lindsay and Miss Edwards were appointed to the chapter's committee for the care of these graves.

The meeting endorsed the I.O.D.E. national war memorial plan, and the chapter will give part of the proceeds from its entertainments towards the fund. Two new members, the Misses Lindsay and Patrick, were enrolled and two others proposed. The chapter decided to take part in the Hudson's Bay Company's historical pageant, May 24, and the meeting voted \$5 towards the I. O. D. E. expense fund in connection with the parade.

CANADIAN BATTLE MEMORIAL SCHEME

Ottawa, May 7.—Memorials to Canada's fighting dead will be erected on eight historic battlefields in France and Flanders if the recommendations of the Special Committee on War Memorials is adopted as submitted to Parliament yesterday. Representatives of Canada's returned soldiers of Canadian colleges and architects' societies and Government officials completed their investigations and submitted their proposals for war memorials.

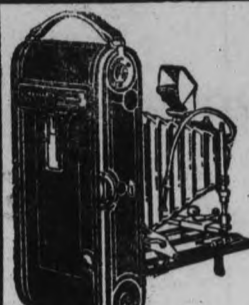

The committee has selected eight sites for the memorials. In Belgium sites at St. Julien, Crest Farm, Paschendale and at Hill 62, Observation Ridge, have been accepted as gifts from the Belgian Government. A site at Bourlon Wood has been accepted as a gift from Comte de Franqueville, Mayor of Bourlon, and four other sites at Hill 145, Vimy, at the crossroads of Drury, at

Panthers Sighted.—People traveling to town on the Esquimalt & Nanaimo Railway last Saturday, while passing near Niagara Canyon, witnessed the most unusual spectacle of two large cougars and two small ones leisurely making their way down the bank towards Saanich Arm. This sight of four of these animals together in the woods is extraordinary in itself, but that they should venture so near a train and make no attempt to escape was thought almost incredible.

VICTORIA MUST GO AFTER TRADE FROM ORIENT, HE ASSERTS

Expert Tells Business Men It Will Not Come of Its Own Accord

If Victoria wants to get the full benefit of Oriental trade she "must go after it," if she wants to see huge steamers from the Far East loading and unloading at the new Ogden Point docks she must show shipping companies some good reason why they should route their vessels to this port. There is plenty of trade and money in the Orient, but it will not come here of its own accord. This, in brief, was what George Carter, the well-known Oriental importer and expert on Asiatic commerce, told the Board of Trade, which held its quarterly meeting at the Dominion Hotel at noon today. As the luncheon was held for the particular purpose of discussing the development of the Ogden Point piers, Mr. Carter's address was heard with more than ordinary interest by over eighty members present.

Most Favored Place.—Declaring that Victoria was one of the spots of the earth most favored by the Creator, Mr. Carter deplored the fact that Victorians had failed to make the most of their city and discouraged projects which might have grown into giant industries. What was most needed in Victoria, he felt, was a little more tolerance, a little more sympathy toward people who were trying to do things. After persuading the Government to build a great breaker and docks, Mr. Carter declared, Victorians had failed to carry on—the Government had provided the work, it was up to the people to turn out the finished product. Lulled into inactivity by beautiful surroundings, and wonderful climate, Victoria had gone asleep, while other cities were going ahead, Mr. Carter said. The result was that commerce was passing up Victoria and her great docks. The

remedy was simple—it was useless to provide docks and even a free port zone without getting business men, particularly in the Orient, interested in the city. The equipment was there, but it had to be put to intelligent use.

Superintendent Wanted.—Mr. Carter regretted that there was no one here in authority over the docks, so that importers were unable to count on using them in routing their goods. A port commission appeared to him to be the logical organization to direct the wharves. A free port area, too, he emphasized at length, would be a tremendous assistance to foreign traders. The speaker went on to describe the tremendous commerce of the Orient and the almost incredible activities of every port from Yokohama right round the coast to Calcutta. But, he pointed out, the thousands of ships loading in the East, each one was definitely routed to some American or European port. Victoria must go after them if she wanted their cargoes to be landed here. Otherwise they would journey elsewhere, because the demand for Oriental produce was constant and tremendous.

Must Move First.—"You may whistle till you are blue, but the trade won't move this way a bit," Mr. Carter asserted. "It won't move till we move. There's lots of money in the East—any amount of it, and if we can show them a good proposition—if we can have a bonded zone—I believe many Oriental merchants would send their produce here."

Free Port Zone.—"Once we get a freeport zone," President Beckwith declared, "we won't have to worry about having our docks used. There will be plenty of business to keep them busy."

Met Death by Suicide.—At the inquest over the remains of R. C. Ferguson, held this morning at the Thomson Funeral Parlors, the jury directed by Dr. E. C. Harl, the coroner, found that Ferguson had met his death by gunshot wounds, self-administered. No evidence was adduced to show the causes leading to the act.

SHERIFF SEIZES MEN FOR JURY AT \$1 A MINUTE

Four Were on Noon Hour Stroll, Others in Court

W. D. Morgan, T. Green, A. Martin and J. Food were somewhat surprised about 12.30 o'clock to-day while they were on a noon hour stroll on the busy part of Government Street, when Sheriff Richards accompanied by a policeman came up to each of them in turn and asked: "What's your name?"

As each man gave his name the sheriff wrote it down, and told him to fall in and come along. The four men who were suddenly corralled this way while they were away from their offices and stores were taken to the assize court for talesman.

Shortly after 12 o'clock, Mr. Justice Macdonald opened the rare case against Al. Louis Moke. Challenges by the counsel exhausted the list of talesmen by the time that eleven jurors had been empanelled.

Wanted Street Men.—To get the twelfth juror, Mr. Justice Macdonald ordered the sheriff to seize spectators in the court. A. C. Hawkins, H. Ashdowne and R. Fenwick were seated in the back of the courtroom, having drifted in to see what was going on. Their names were taken, and they were brought in as talesmen.

The sheriff was starting to take other spectators when W. C. Moresby, who is defending Moke, asked that absolutely independent talesmen be secured. He said he feared that the men in the court were there because they were interested in the case.

Twelve More Freed.—To get four more men the court then ordered the sheriff to go out and pick them up off the street. Just as the extra talesmen in charge of the sheriff appeared before the judge, the jury in the Jennie Carson forgery case came in and gave their verdict. This immediately released twelve more men for jurors, making nineteen.

The names of the nineteen were put in the box and the first names to be drawn were those of some members of the Carson jury. Mr. Moresby accepted one of these men and the Moke jury was completed.

Quick Four Dollars.—The seven men who were taken from the back of the court and from the street were then discharged by the court. The sheriff was instructed to pay them the full juror's fee for the day which is \$4. They were held only four minutes altogether. "It's the quickest four dollars I've ever earned," said one of the men. "And it is the first time that I've had four dollars handed to me while I was out on a noon hour stroll."

Jennie Carson Guilty.—It took the jury only a few minutes to find Jennie Carson guilty of forging and passing a cheque when the case was handed over to them at noon. She will be sentenced at the end of the assizes.

J. S. Brandon, prosecuting for the Crown, brought into court Henry J. L. Ketchen, manager of the Douglas Street branch of the Royal Bank, Ernest Lloyd, the clerk who certified the forged cheque when it was presented, and M. Hamilton the paying teller who cashed the cheque. These bank men told of how Mrs. Carson presented the cheque and was told to endorse it. The cheque was for \$50 and signed by Brian Singh. After cashing the cheque, they found that the signature was not that of Singh.

Same Handwriting.—Singh swore that he never drew such a cheque. J. H. Beatty, chirography expert, after examining the cheque swore that it was filled out, signed and endorsed by the same hand.

"No, I don't use dope," replied Mrs. Carson.

Cleave White defending Mrs. Carson declared that Singh may have been trying to get back at Mrs. Carson for something and to do this denied making out the cheque. Evidence was given that Mrs. Carson had been living with Singh in his house for weeks at a time.

The Moke trial, Mr. Moresby announced when it opened this afternoon, will last about two full days as there is a long list of witnesses.

SETTLEMENT ON GORGE BRIDGE

Protracted Issue of Repair Is Determined Between Saanich and Esquimalt

After an hour and a half of conference the Esquimalt and Saanich Councils last evening agreed to repair the Gorge bridge to the extent of temporary repairs costing \$600, and carry out further improvements to the extent of \$1,400, making \$2,000, of which the Government will contribute \$1,000, the municipalities dividing the balance.

The Council of Esquimalt will carry out the work under the jurisdiction of both engineers, labor from both municipalities to be employed. The Department of Public Works will be informed of the character of the proposed improvements, which were outlined in the accompanying report of Engineer Milne, of Saanich.

The Report.
"From a more detailed inspection of this structure it is apparent that it has never received any painting maintenance since erection. To a large extent the steel has been allowed to become very rusty and some parts pitted and scaled, especially the open angles and plane surfaces where dirt has accumulated.

"There is no information to be obtained as to the stress-strain diagrams of the bridge, but in examination of the plans and information from the Public Works Department it appears that the bridge was designed for a concentrated load of five tons, together with a distributed load of 100 pounds per superficial foot. In comparing this capacity with modern practice and present-day traffic requirements it is very small. Designing of traffic bridges at the present time provide for concentrated loads of from 14 to 20 tons.

"Seeing that this bridge has been subjected to extreme loading and vibration I am not prepared to say that it could safely carry at the present time.

"The arch will require to be tested by the removal of some of the rivets and given a careful examination for traces of shear, etc. Furthermore, all riveting should be examined and all worn or depreciated work replaced. On this being done the steel should be fettled, scraped and cleaned and when dry receive a coat of red lead and linseed oil. A second coat of good bridge paint should be given the whole structure.

"In view of the general conditions met with I would be of the opinion that this bridge should be used for foot traffic only until such time as a thorough examination would justify an increase of load. If it is decided to use this bridge temporarily and repairs done, from an economical standpoint I would suggest that as most of the old stringers are in fair condition five new stringers be put in each bay and timber bent supports constructed in front of the abutments. This would permit the bridge to be used for very light traffic for a limited period, say a few months, and cost about \$600.

"Should funds be available I would recommend the following repairs: The whole deck, stringers, floor and guard rails with the caps on the shore abutments at an approximate total cost of \$1,200.

"In addition to this I might say it will be necessary to renew the cribbing breast walls supporting the bridge approaches at each end, as these are to a large extent decayed at an approximate cost of \$100.

"It is evident from the information obtained that no matter what repairs are carried out on this structure it will not meet the requirements of general traffic and if it is decided to have a thorough examination made of the superstructure with a view to permitting a specific load, I would advise that the Municipal Solicitor be consulted as to liability in case of accident due to overloading.

"I am of the opinion that the Public Works Department should be in a position to advise the municipalities as to the definite load this structure would carry and their estimate of repairs based accordingly."

A Special Claim.
Reeve Lockley said Esquimalt felt that as the Hudson's Bay Company was a heavy taxpayer in the district some special effort should be made to put the bridge in temporary repair for the pageant. He declared that joint action with Saanich was essential, and full powers had been given to put the matter clearly before them. He believed that \$2,000 might meet the situation, of which the Government would be willing to give \$1,000.

The Council of Esquimalt concurred with what had been said, that co-operation

Inflammatory Rheumatism Cured by B.B.B.

Rheumatism is a constitutional disease, caused by the uric acid in the blood. It manifests itself by pain and lameness attacking the muscles and joints of the body, which often swell and become hot and inflamed.

Anyone who has suffered month after month, and perhaps year after year, with rheumatism, and who has tried remedy after remedy in the hope of relief, and without success, should not give up hope.

Burdock Blood Bitters, by invigorating the digestive organs and eliminating the uric acid from the system will give prompt and permanent relief.

Mrs. D. Barry, Purilbrook, Ont., writes: "I feel it my duty to let you know of the great benefit my husband derived from using your Burdock Blood Bitters. He had been suffering for thirteen years with inflammatory rheumatism. He tried many medicines but got no better. A friend advised him to take B. B. B. He did so, and after taking five bottles he felt like a new man, and was able to go to work the same as ever."

Burdock Blood Bitters has been on the market for over forty years. Manufactured only by The T. Millburn Co., Limited, Toronto, Ont.

OLD PEOPLE NEED STRENGTH

This Woman of Eighty-one Years

Tells How Vinol Creates Strength For the Aged

She says: "It is with great pleasure I tell others of the great benefit I have derived from VINOL. I am now eighty-one years of age, and I have never found any remedy that would create an appetite, overcome nervous conditions and build up strength equal to VINOL."

The reason VINOL is so successful in such cases is because it contains the tissue building and medicinal elements of cods' livers, aided by the blood making, strength creating properties of tonic iron, beef peptones and hypophosphites.

Thus, in a natural manner, it increases the appetite, aids digestion, enriches the blood with thousands of red blood corpuscles and imparts strength, health and vitality to every organ, muscle and tissue of the body.

If feeble old people only realized the good VINOL will do them our druggists would not be able to supply the demand.

between the Councils was essential. Engineer Bourne, of Esquimalt, also briefly spoke.

Reeve Watson said it must be accepted that vehicular traffic was out of the question, and that, therefore, the bridge must be restricted to passenger traffic, and also restricted by police regulation against an accident.

Engineer Milne said temporary work could be done in two weeks' time.

Councillor Dooley considered that the Government had now thrown on the municipalities a lame duck. The councillor said he believed the whole matter should be repudiated as laid down by the Government. In view of the Point Ellice Bridge disaster, he recommended barricading the bridge and only allowing passengers to pass on the bridge, not to congest.

Reeve Watson contended that the traffic did not require a heavy bridge, and should be of a limited character only hereafter.

Councillor Clark did not see any necessity for an expensive scheme on that location.

Thorough Job Wanted.
Councillor Brooks doubted the advisability of temporary repairs, believing that thorough work would be best.

In answer to Councillor Clark, Mr. Milne said that the temporary work would be preliminary, and part of the general improvements.

Councillor Terrell moved a motion in favor of the execution of the temporary repairs.

Reeve Watson, in answer to a remark of Councillor Henderson, favored a restriction of carriage to foot passengers.

Councillor Henderson didn't believe that course was best, and wanted a bridge capable of carrying two and a half tons.

Clerk Cowper believed the Council, under the Extraordinary Traffic By-law, could determine the extent of the traffic.

Councillor Henderson said concrete abutments should be put in, in place of the wooden ones, and the steel span could determine the extent of the traffic.

Councillor Clark said he was against spending money for heavy traffic for city trucks, as unnecessary.

Ready to Take Chance.
"If I go over I go over, if I go down I go down," would be the remark of a motor truck driver who came to the bridge, and read a warning sign, remarked Reeve Watson.

Reeve Lockley feared that some conflict of jurisdiction would result if the bridge was thrown open to general vehicular traffic.

Reeve Lockley said that it would be almost impossible to secure a favorable vote for a bridge bylaw in Esquimalt, owing to that section of the municipality being thinly populated.

Questions as to whether the bridge should be barricaded up were mentioned.

A motion adopting the Engineer's report was moved by Councillor Dooley, seconded by Councillor Brooks, and adopted.

A further motion was adopted to have Esquimalt carry out the work under the joint jurisdiction of the engineers of Esquimalt and Saanich, half the labor from each municipality to be employed.

MAJORITY OPPOSES LARGER GRANT

Saanich Renews Subscription to Development Association at Old Rate.

"We have given the city the real material for publicity," said Councillor Henderson, when the vote for the Victoria and Island Development Association for 1920 was before the Council of Saanich last evening.

The Association had asked for \$2,500, and Councillor Henderson suggested an appropriation of \$500 should be granted.

An amendment to leave the sum at \$250, as last year was moved, and adopted by four votes to three.

The division was only reached after the clerk had had to search the building for members to secure a quorum, the official whip getting a full membership at length, with the above result.

The House of Commons possesses a post office of its own, which deals with over two and a half million postal packets during a single session.

—Is Your Hair Falling Out?

A YEAR AGO, when the dreaded "flu" was raging, many people were alarmed at the rapidity with which they were losing their hair. Some were threatened with complete baldness, while with others the hair became "dry," losing color and lustre. As a result, the demand for a reliable scalp tonic was tremendous. One by one various Druggists began to offer their customers a scalp tonic called "VIE-DE-PEAU." It was practically unknown except to the makers. No exaggerated promises were made. Each bottle was sold with the simple statement:

"If it doesn't stop your hair from falling out, restore its lustre and natural color, return the empty bottle, together with purchase receipt, and get your money back."

The makers of VIE-DE-PEAU made a careful study of scalp treatment. They know that it is impossible to grow hair on a bald plate. But, it is possible to prevent anyone from becoming bald. They proved to their own satisfaction that VIE-DE-PEAU would restore the scalp to its normal condition and in this way save the hair. But, they wanted VIE-DE-PEAU to prove itself. So they offered it to the public unannounced. VIE-DE-PEAU has proven itself in hundreds of homes. And we repeat: "If it doesn't stop your hair from falling out, restore its lustre and natural color, return the empty bottle and get your money back." Price, **\$1.00.**

EXPLAINS POSITION IN RAFFLE CHARGES

Mayor Informed That He Was to Have Been Arrested in Public Place

Mayor Porter this morning made clear his position in the German helmet-affle charges made against him by Clarence Harris and associates, who met the Police Commission yesterday.

His Worship explained to The Times that a returned soldier, who stated that he had a wife and children who were ill, had waited upon him and asked his permission as Chairman of the Police Commission to hold a raffle for a German helmet. To this the Mayor had replied that he had no power to allow the raffle under the law, and if it were held the holder must take the responsibility. Moreover, the City Council, he said, had voted unanimously to allow the raffle, when the matter was brought before it. In the case of the motor car raffled in connection with "Hello, Victoria!" the same condition applied, the Mayor stated.

If anyone had laid information concerning the holders of these raffles, Mr. Porter said, the police would have proceeded against them under the law.

It was a matter of some surprise to His Worship that the people who objected to the raffles had not filed information against the parties holding the raffles, instead of charging him.

The Mayor has been informed that it was the intention of certain persons, whose names he knows, to have him arrested charged with breaking the law in allowing the raffles and, moreover, to have him arrested in a public place. The city's chief magistrate professes himself amused with the suggestion.

SAY PROHIBITION DEFECTIVE, BETTER THAN NONE AT ALL

Presbyterian Synod Considers Benefits of Dry Law; Condemns Profiteers

People of British Columbia, especially Presbyterians, are urged to reflect on the benefits of the Prohibition Act, according to a resolution passed by the B. C. Presbyterian Synod late yesterday. The resolution was addressed by Harold A. Beckwith, the Rev. R. M. Thompson and the Rev. W. G. W. Fortune, prohibition leaders.

These speakers declared that even present conditions with all their defects were better than the former license system. They urged church support in the plebiscite campaign, and recognition that defects are due to failure in the administration of the Act.

Reporting on industrial relations, Dr. E. D. McLaren declared that the church should become an agency in mediating capital and labor troubles. E. S. Woodward, President of the Victoria Trades and Labor Council, asserted that there is no use looking to the newspapers for reliable reports on labor. He said the Winnipeg situation was misrepresented by newspaper reports.

Condemnation of individuals and corporations using the present economic crisis to amass fortunes was voiced by a resolution passed by the Synod.

Exchange Costs High.

The \$25,000 raised by the Presbyterian Synod in British Columbia last year represents an increase of 12 per cent. over the year before, according to the financial report of the Rev. M. Mitchell, of Vancouver. Last year \$1,178,846 was raised by the whole church in Canada. This is nearly \$200,000 more than the year before. Last year there was a loss of \$44,000 through exchange in the mission funds. For exchange the 1921 budget is making an allowance of \$12,000. The B. C. Synod, it was decided, will raise \$55,000 of the \$1,400,000 required by the Canadian Presbyterian Church next year.

Judge Swanson, of Kamloops, gave a report on church property. The Synod was welcomed by the Rev. R. Wilkins, president of the Ministerial Association of Victoria, and the Rev. H. S. Osborne, of the Metropolitan Methodist Church. Principal Smith and Dr. E. A. Henry gave addresses on the college in the new era. Mrs. Inkster was greeted as the representative of the Women's Missionary Society.

Next year's Synod will be held in Vancouver the first Tuesday in May. A vote of appreciation was given to Dr. Logan, of Westminster, who has been clerk of the Synod for the last twenty-five years.

NEWS IN BRIEF

Applied Psychology.—This evening Mrs. Hele Ashe will lecture at her residence, No. 108 Fort Street. By request she will continue the discussion of the subject treated in her last lecture: "Thought vibration through mysterious ether of space."

Leaving to Enter Ministry.—The Saanich Council last night accepted the resignation of R. A. Redman from the position of waterworks clerk of the Saanich municipality. Mr. Redman will become a probationer in the Methodist ministry.

Alleged Vagrant.—Jack Duffey, charged with vagrancy, appeared in the Police Court this morning. After hearing considerable evidence on the charge, Magistrate Jay granted accused's request that he be allowed to go to Seattle where, he said, he was willing to put himself in the hands of the police.

Mill Fire.—A fire which caused considerable damage and property loss broke out in the Canadian Puget Sound Timber and Lumber Company's big mill at Rock Bay at six o'clock this morning. The sprinkler system held the blaze in check until the Fire Department arrived on the scene.

To Hold Tea and Linen Shower.—Under the auspices of the Graduate Nurses' Association a tea will be held at the V. O. N. headquarters, 1145 Rockland Avenue, on Wednesday, May 12, in commemoration of the anniversary of the birthday of Florence Nightingale. In connection with the tea a linen shower will be held for the purpose of furnishing the ward to be opened by the Association at the Jubilee Hospital in memory of the late Nursing Sisters Campbell and Wake. The organizers hope that all nurses and their friends will attend this little function on Wednesday.

Plan Publicity Drive.—Officials of the Victoria and Island Development Association yesterday afternoon made their preliminary plans for the 1920 season, following the success of the drive for funds. Publicity Commissioner Thomson is now preparing his budget. Literature in enormous quantities will be printed for the special publicity cultivation of the English and Middle States fields to bring settlers this year. To bring settlers to the land on Vancouver Island is the main object this year. The publicity committee this year consists of J. Carl Pendray, president; Alderman Tod, George L. Warren, J. S. MacDonald, A. S. Stevens, James H. Beatty and W. A. Cameron.

FIND DISCREPANCY IN TWO REPORTS

New Light Is Thrown on Elk Lake Watershed Dispute

After the meeting of the Saanich Council last evening councillors perused the Elk Lake watershed report which has caused so much friction between the City and Saanich Councils, and were surprised to learn that there is a substantial discrepancy between the report of the Grand Beaches and Parks Committee's report with regard to the sale of the watershed and that which was subsequently submitted to the City Council and ratified.

One of the clauses, vital it was said to what subsequently transpired, has been altered, the qualifying clause having been removed to another position in the report.

This discrepancy more than convinced the Saanich members of the Committee they had not been guilty of "the repudiation" lodged against them in the City Council, and that the aldermen will come to "see the error of their ways."

Meanwhile the impasse continues, and the soreness has been increased by the remarks with regard to alleged sewer connections on the Northeast system made in City Council on Monday. No authority for connections to the sewer has been given by the Saanich Council to residents in its district, though the Normal School has a connection by special arrangement. That connection belongs to the Government, which is anxious to know when the municipality will pay for the installation of lateral Y's put in for house services which are not connected pending the settlement of the sewer controversy.

Roof Fire

The Fire Department extinguished a roof fire which broke out in a residence at 176 Rockland Avenue yesterday afternoon at four o'clock.

ARION CLUB GAVE ENJOYABLE CONCERT

Miss Eva Hart and Miss Lucille Hall Assisting; For S. P. C. A. Funds

For the benefit of the Royal Society for the Prevention of Cruelty to Animals which is this week holding a "Humane Week," the Arion Club last night at the Empress Hotel repeated part of their programme given at their recent concert. Nor did the programme lose any of its attraction in the repeating for the choir last night was in even better form than before, the pitch being well maintained, and the choristers responding splendidly to the baton of the conductor, Herbert Knudsen.

The Club was assisted by Miss Eva Hart who sang delightfully the ever-popular "Poor Wandering One" from the Pirates of Penzance. Six chorus girls who, with Miss Hart were attired in the quaint costumes of the period, added much to the attractiveness of this number. Miss Hart also sang in the second part of the programme, her number being "Dream of 'Day Jil'" from Tom Jones (Edward German).

Last night's concert furnished opportunity for the introduction to an Arion Club audience of Miss Lucille Hall, a gifted young pianist whose playing revealed a brilliance unusual in so young a musician. Her clever performance last night, suggests a promising career, and it is to be hoped that she will be again heard on the local platform. Her numbers included, "Saltarello" (Mandelsohn-Heller), a difficult composition in which she displayed technical ability and temperament.

Miss Barfoot and Mrs. Cameron acted as accompanists; Mr. Sherwood was in charge of the door; and Messrs. D. Hudson, J. Proctor, F. Sherwood, G. Barton and D. Hincks very kindly lent their services as ushers.

Bishop Brewing to Speak To-night.—Right Rev. Bishop Brewing, of Toronto, will give an illustrated lecture on "A Trip Through Stricken France," to-night at 8 o'clock at the Church of Our Lord, Humboldt Street. Bishop Brewing is an able speaker and student, and his address should be of extraordinary interest.

O'DOWD LOSES TITLE TO UNKNOWN FIGHTER

Boston, May 7.—Johnny Wilson, of Boston, won the middleweight boxing championship of the world when he was awarded a referee's decision over Mike O'Dowd, of St. Paul,

here last night. They went twelve rounds. O'Dowd was the aggressor throughout the contest, but Wilson, a left-handed boxer, scored repeatedly with his right. O'Dowd excelled in fighting, but seemed unable to fathom Wilson's style of boxing. Eight of the rounds went to Wilson, two to O'Dowd, and two were even. The only knock-down of the bout came in the second round, when Wilson caught O'Dowd with a straight right to the jaw. O'Dowd going down for the count of four. Wilson surprised the followers of the game by

scoring so many times with his right, breaking through O'Dowd's defence often.

The pace set by the men was fast and at the end of the twelfth round both were unsteady on their feet.

A capacity crowd witnessed the bout. The St. Paul boy was a big favorite before the bout, the general betting being ten to three. Hector MacInnes, of Boston, was referee.

Wilson has participated in many bouts against second rate boxers in the last year, and has appeared in many cities, principally in New England. Last night's bout was his first against a leading boxer.

O'Dowd won the title from Al McCoy in 1917.

When the gong sounded for the end of the twelfth round and referee MacInnes pointed to Wilson's corner in token of the local boy's victory, O'Dowd protested the decision, claiming he was entitled to a draw at least.

Griffith's Wins. In the second round of a scheduled four-round bout here last night, Johnny Griffith, of Akron, Ohio, was given the decision over "Kid" Moran, a local boy. Young Farrell, of Los Angeles, was outpointed by Al Walker of San Francisco in a four-round bout. Bud Ridley and George Spencer, bantamweights, fought a draw.

Asleep Two Minutes. Sand Point, Idaho, May 7.—After punishing Romeo Hagen, of Spokane, from the first gong, "Army" Welch knocked him through the ropes in the third round with a left to the ribs and a cross to the jaw, putting Hagen to sleep two minutes, in their scheduled twelve-round bout here tonight. The men are light-heavyweights.

Welch will meet Al Sommers, of San Francisco, in Spokane, May 12.

Victory Bonds and Semi-ready suits are alike in the fact that they are always worth the par value marked in plain figures on them.

But Semi-ready suits have the edge on Victory Bonds inasmuch as the suits would sell for a premium above the price label in the pocket if offered in the United States.

Pure wool clothes cost less in this city than the same quality would sell for in any city in the Union.

The par value of a Semi-ready garment is based on the cost of cloth and materials—and the price in the pocket represents the smallest and fairest profit at which good clothes can be sold.

SPORTS

LAWN BOWLERS ARE READY FOR OPENING

Hon. J. D. MacLean Will Formally Open Season Tomorrow Afternoon

Lawn bowling will get under way to-morrow afternoon at the Beacon Hill green under most auspicious conditions. Hon. J. D. MacLean, Minister of Education and Provincial Secretary, will officially declare the season open and will distribute prizes won in last year's tournaments and also assist President W. H. Cullin in trying to defeat a rink led by the vice-president, Robert Dodswell.

It is expected that the Beacon Hill green will be the scene of a very merry throng. All the members of the Victoria Lawn Bowling Club and their friends will be present to assist in making the afternoon a memorable one. The membership in the club this year is the largest in its history and augurs well for a most successful season. It will also provide a greater opportunity for the club to pick stronger rinks to represent the capital in the inter-city games, which always attract so much interest.

Premier Cannot Attend. It was originally intended to have the Hon. John Oliver open the season, but he has been called away to the Mainland on urgent business. However, a worthy substitute has been found in Hon. Mr. MacLean, who is a fair hand at the game of bowls. He gained considerable fame as a curler and takes naturally to bowls, which resembles in many respects the game of Winter pastimes. The executive of the club will hold a meeting this evening to select skips for to-morrow's match. A good afternoon's sports will be arranged.

CRICKETERS TO OPEN SEASON TO-MORROW

Three Games Scheduled; Interest Running High in Game This Year

Victoria cricketers will open their season to-morrow, a keen race is expected this year between the various clubs, which are well matched. To-morrow fixtures will be as follows:

Victoria vs. Incogs at Jubilee Hospital.
Albion vs. Garrison at Work Point.
Congos vs. A. & N. at Beacon Hill.
The following will represent the Albion C. C. at Work Point to-morrow: Watson (capt.), Freeman, Jordan, Lowe, Johnstone, Attwell, Barclay, Gregson, Hogarth, Lowdon, Booth.

The following will represent Victoria at Jubilee Hospital: H. A. Goward (capt.), J. H. Gillespie, S. M. Gillespie, F. A. McAdam, J. R. Neston, H. Lethaby, F. Smith, H. Orchard, R. A. Vaughan, J. F. Marshall, and H. A. Tomalin.
[Cricketer clubs which wish their teams for Saturday games published are asked to be sent handed in at The Times before 10 o'clock on Friday morning in order to insure publication.—Sporting Editor.]

AL M'KINNON GOES AFTER BOXING TITLE

Al McKinnon, the shifty 145-pound boxer who wears the colors of the Y. M. C. A., has joined the string of local boxers which is in Vancouver after the British Columbia amateur boxing championships to be staged to-night. Al is a clever boxer and should go a long way after the 145-pound title. He is in good condition and the wallop he carries in his left hand has the power to crack open the forehead of a mule.

The local stragglers through the inability of Roy Baker, the fast little bantam, and Shepherd, the wrestler, to make the trip. Shepherd has to undergo an operation and Baker is suffering from a severe cold, which has slowed him up considerably. It was expected that Baker would have brought home the championship for the 125 pounds, and he would probably have gone quite a way in the 135-pound class.

How They Fight. Victoria representatives now include Al McKinnon, Scotty McKay, Johnny Morgan and Teddy Ford. McKinnon only plans on trying his luck in the 145-pound class, but Johnny Morgan is ambitious and will try and battle his way through three classes, including the 145 pounds, 155 pounds and light-heavyweight. McKay is after honors in the 135 pounds and 145 pounds classes, while Ford is contenting himself with the same classes as McKay.
Scotty McKay had quite a job cutting down his weight so as to be able to enter the lightweight class. He found the ordinary punching bag too weak and light for his powerful arms, so resorted to a 60-pound bag of his own invention.

SUSPICIOUSLY KILLED

Philadelphia 5 12 4
Batteries: Scott, Rudolph and Gowdy; Smith, Welner and Tragesor.

Cubs Drop Another. Pittsburgh, May 7.—Pittsburgh defeated Chicago for the second time at home, 3 to 1. Cooper held the Cubs to four hits. A pass, a single, a sacrifice and an out at first scored the visitors' single run.

Score—R. H. E.
Chicago 1 4 0
Pittsburgh 3 8 3
Batteries: Hendryx and O'Farrell; Cooper and Schmidt.

Kauff in Limelight. New York, May 7.—A single by Kauff in the first inning that scored Fletcher gave the Giants the margin they required to defeat the Dodgers yesterday, 2 to 1.

Score—R. H. E.
Brooklyn 7 1 1
New York 2 5 2
Batteries: Mammaux and Miller; Douglas and Smith.

American League. Chicago, May 7.—Cleveland made it two straight from Chicago yesterday, winning 3 to 2 in ten innings. The visitors put the winning run across when Williams weakened in the tenth and issued his only pass to O'Neill. Bagby sacrificed him to second and he took third on Graney's infield out. Chapman then dropped a single left and O'Neill scored.

Score—R. H. E.
Cleveland 3 9 0
Chicago 2 9 4
Batteries: Bagby and O'Neill; Wilkinson and Schalk.

Won by Good Pitching. Boston, Mass., May 7.—Two doubles by Hendry and two errors by Gallo-way, aided Boston to defeat Philadelphia yesterday, 3 to 1. Jones yielded only four hits and was backed sensationally by McNally and Hooper.

Score—R. H. E.
Philadelphia 4 2 1
Boston 3 5 1
Batteries: Keefe, Eckert and Perkins, Myers; Jones and Walters.

Detroit Comes Back. Detroit, May 7.—Bunched hits in three innings of the second game of the St. Louis series won for Detroit yesterday, 8 to 4. Oldham was hit harder than Vangilder, but the visitors were unable to group their safe hits when they were needed to count. Veach made a remarkable catch of a drive off Tobin's bat in the ninth.

Score—R. H. E.
St. Louis 4 10 2
Detroit 8 7 2
Batteries: Vangilder and Severeld; Oldham and Stange.

Senators Win. Washington, May 7.—Bunched hits enabled Washington to defeat New York, 4 to 1 yesterday. Schacht was steady throughout.

FIVE YEARS AGO TO-DAY LUSITANIA WAS SENT DOWN

The writer of the following on the sinking of the Lusitania is now a resident of Vancouver. He will be recalled as the rescuer of Helen Smith, the little Yonkers, N.Y., girl, then aged six, who lost her both parents, two sisters and a brother. With Mr. Cowper, she spent two hours and forty minutes in the water, clinging to a deck chair until ultimately picked up by a patrol boat. Mr. Cowper was later presented to Queen Alexandra, who took the greatest interest in the welfare of the small waif of the sea who accompanied him to Sandringham Palace.

By Ernest S. Cowper
Five years ago this afternoon, at eight minutes past two, to be exact, the R.M.S. Lusitania, while making up for the Old Head of Kinsale, en route to Liverpool from New York, was torpedoed and sunk by a German submarine. Thirteen hundred lives were snuffed out, among them many Canadians, and Berlin was thrown into a state of exultation while the civilized world recoiled in horror. This marked the opening of a campaign of savagery which continued for more than three years and proved the most potent factor in bringing the United States into the war. But while the world became nauseated with daily horrors so numerous that they were quickly forgotten, the destruction of the giant liner, fastest vessel on the Atlantic, still stands out in the memory of the people beyond any other single incident of the war.

But the horrors of assassination by torpedo were overshadowed by the number of acts of noble self sacrifice on the part of many of the victims. Germany best knows what her purpose was in sinking the unarmed liner and drowning hundreds of women, children, neutrals and other non-combatants but this much is certain, that it gave just one more opportunity for the English-speaking people to show with what quiet fortitude they can meet the grim reaper whether it be on the rolling waves of the cold Atlantic or on the shell-torn fields of France.

When the Titanic was sinking, it was Colonel Astor who freely gave his life, and on the listed deck of the Lusitania it was Alfred Vanderbilt—whose grey-teamed coaches have been sadly missed along the Brighton Road—who readily surrendered his lifebelt to a lady, a stranger. Poor Vanderbilt, unrivalled in the handling of the ribbons, he was childishly ignorant of the simple art of swimming. I saw him smilingly proffer his lifebelt to a grey-haired stewardess from the second class, a cherry-faced woman who, with a sense of duty, knowing that she was one of the crew, declined the lifebelt and pointed to a woman passenger who was without one. Near the two stood Lieut. James Dunsmuir, of Victoria, leisurely smoking a cigarette and later rendering what aid he could in filling the lifeboats. I saw the corpse of the stewardess in the morgue at Queenstown next day and her face still carried a smile which had remained lit throughout the trip. She was a very brave woman.

I can still see Elbert and Alice Hubbard walking away arm in arm to their room and closing the door behind them to solve the problem by themselves when they saw the last shred of hope die. And what a calm beautiful smile they wore. Hubbard was the man who characterized the Kaiser as "the man who lifted the lid off Hell," but for himself and Alice Hubbard it looked, from their demeanor, as if indeed he had opened the gates of Heaven and given them a glimpse beyond its portals. They died nobly.

And the vision of Charles Frohman standing in the centre of a little group telling a woman who had uttered an inventory of what she does must not be afraid, that "death was the most novel experience in life," still seems very real. Poor Frohman had not a chance in the world, and well he knew it. He had taken all his walks throughout the trip with the aid of a walking cane and though he looked ill, he always had a cheery word for everybody, whether passenger or one of the crew. The instinctive leadership inherent in him disclosed itself in those last few dramatic moments, for he was the centre of a group, among which were many men stronger than he, but who intuitively recognized his leadership and looked to him to tell them what to do or how to die. Little did he know on leaving New York that he would occupy the centre of the stage in his last dramatic moments.

From the beginning it appeared to be a hopeless situation and so difficult was the launching of the boats owing to the terrible list, that it soon became a question of who should remain among the throng which inevitably must be engulfed in the last plunge. One could see the bow rapidly sinking, the water reaching the long line of open port holes, higher and higher until at last the small ensign which fluttered from her stem disappeared, then the forepart of the deck, the navigating bridge, and then the funnels one by one.

The brave company who were working against fearful odds, backed up as the waters approached them, but the knowledge that they must remain did not impair discipline in the slightest, and many women, thinking that others had a prior right by age or family, had to be quite forcibly encouraged to take a place in the lifeboats.

But the bravest man of all that assembly was rugged, hard-swearing old John Davies, the boatswain. He had the most picturesque line of profanity I ever listened to, and he didn't mean a word of it. He was a typical old sea dog, the sort of boatswain one reads of in a Clarke Russell yarn. He had no frills and wore none of the fine plumage of the modern passenger liner. For everything and everybody but a ship or a sailor he had a fine contempt and his attitude toward death was just as constantly contemptuous.

He directed the lifeboat launching operations, and while one boat was filling he made fast the fall and lit his pipe despite the fact that the Lusitania's bow was then under water.

spirits, for one of them produced a packet of cigarettes and together they sat on the slanting boat deck waving farewell to their more fortunate brethren. I saw them launch their last boat and prepare to launch another when the Lusitania stood on end and threw all three into the sea. The two wireless boys were lost—they were Liverpool lads—but Judge J. J. Murphy when John Davies came ashore that night in Queenstown, having been picked up by a patrol boat after hanging on an upturned boat for several hours. If ever a man deserved to live, John Davies did. I hear the Cunard Line rewarded him by bringing his sea days to an end and giving him the shore boatswain's job at Liverpool.

It was such incidents as these, coupled with the spirit of nonchalance apparent on all sides, that raises the question, does nature fortify us with a reserve of nerve—ros with which to face a crisis or does the mind become numbed by the magnitude of what is going on about it at such a time? I do not propose to answer the question, but this much is certain; there was not a sign of fear displayed by any man, woman or child aboard the Lusitania. All those who were lost died decently, and all those who were saved, were saved decently. There was no panic, no excitement of any description. The destruction of the liner is frequently referred to as the "Lusitania horror." A fiendish act of barbarism it undoubtedly was, but the conduct of the people on board places it in the category of a tragedy, not a horror.

Even the children were calm. I saw the corpses of several of the "children of the Lusitania," as they have come to be called, laid out on the cold flagstones of the building converted into a morgue in Queenstown, with little posies of flowers in their hands. In many cases these babies were in the last embrace of their mothers and fathers; in fact, many were buried that way. There was still a look of calm content in their faces, a look which would indicate that the last vision their eyes beheld was a pleasant one. The women from around Cork and Queenstown declare that on the night of May 7 each year the cries of the

FROM BARTER TO COMMERCE

BY
SIR WILLIAM SCHOOLING, K.B.E.,
Author of
"The Hudson's Bay Company, 1670-1920."

THE change in character from primitive barter to modern commerce is perhaps less significant than the expansion of the operations of the Hudson's Bay Company during the past two hundred and fifty years.

The "Non-Such," a vessel of fifty tons, sailed for Hudson Bay in 1668. This was an event of momentous significance. Its cargo consisted of a few simple articles to be exchanged for furs.

During the years 1915-1919 the Hudson's Bay Company transported for various Governments goods in excess of 13,000,000 tons. In 1918 and 1919 the work was equivalent to unloading the contents of the "Non-Such" every seven minutes of the day and night for two years on end. The ships and cargoes sunk by submarines were valued at \$125,000,000.

Of greater interest and importance is the huge trade of the Company's Stores in many Canadian Cities. To them may fitly be applied the words which a wise old Indian spoke to his tribesmen one hundred and sixty years ago: "There are traders of the great lake yonder (Hudson Bay) who are never absent, neither in our time, nor in the time of our grandfathers and great-grandfathers. They are like the rock which cannot be moved, and they give good goods and plenty and are always the same. If you are wise you will go hence and deal with them."

This sage counsel to the Indians in the eighteenth century applies no less to the people of Canada nearly two hundred years later.

Does It Catch You in the Back?

It may be that you are mysteriously attacked by pain in back (lumbago), or limbs, "neuralgic" pains—shooting anywhere, or swollen and painful feet. Pain and backache of any kind are often caused by kidney disorder, which means that the kidneys are not working properly. Poisonous matter and uric acid accumulate within the body in great abundance, overworking the sick kidneys. Perhaps you have become nervous, despondent, sick, feverish, irritable, have headache or spots appearing before the eyes, bags under the lids and lack ambition to do things.

The latest and most effective means of overcoming such trouble is, take a single Anuric (anti-uric-acid) Tablet before each meal.

Obtain Anuric at any drug store, or send ten cents to Dr. Pierce's Invalids' Hotel, Buffalo, N. Y., for trial package. Listen to this:

Hamilton, Ont.—"I have suffered with rheumatism for the last five years and I have only taken three bottles of Dr. Pierce's Anuric (anti-uric-acid) Tablets and three bottles of 'Golden Medical Discovery' and am nearly cured. I also had that dread disease, Spanish Influenza, leaving me in a terrible condition. Only those who have had it know what an awful condition it leaves one in. I am sure if it had not been for Dr. Pierce's medicines I would have died."

"I want to recommend Dr. Pierce's Anuric to any sufferer with kidney trouble. Also try Dr. Pierce's Pleasant Pellets for constipation."—MRS. ESTELLA GRANBY, 54 1/2 James St. North.

SAILING VESSELS HAVE BIG FUTURE

"Never have I been so confident in the success of the sailing ship as I am at the present time," declared Captain H. C. Hansen, one of the directors of the Victoria Shipowners, Ltd., in discussing the favorable prospects for the future of the wooden sailing ships being built here for the offshore trade. Numerous inquiries have been received by Captain Hansen from prospective charterers of the ships to be turned out by the local yard, which conclusively proves that the ships will be in demand at profitable rates immediately they are put into commission.

"There will be no difficulty in chartering these vessels," said Captain Hansen. "Instead of four ships I could place forty at high freights." In touching upon the profits to be made by sailing tonnage Captain Hansen pointed out that the situation was even better now than it was prior to the commencement of the contract.

Advantage of Sail.

The sailing vessel at the present time has a great advantage over the steam-propelled ship, he contended, inasmuch as the operation of the steamer was seriously handicapped by delays created by the fuel shortage, whereas the sailing ship relied solely on the zephyrus to carry them to their destination. Furthermore, the sailing craft is much more economical to operate as the operating expenses were insignificant as compared with the steam-driven vessel, which was forced to carry larger crews. The ever increasing price of fuel was also a factor working to the disadvantage of the steamer. In point of efficiency the world's tonnage, he explained, was fully fifty per cent. less than the pre-war period.

At most of the large ports of the

world steamships were experiencing delay owing to difficulties in securing fuel, and in the majority of cases the vessels had to await their turn at the supply depots.

The unusual situation created by the war has brought even England to a realization of the value of sailing tonnage. Steel sailing vessels are now being built in the United Kingdom. Captain Hansen stated, to prove his contention as to the efficiency of the modern windjammer.

The Victoria Shipowners, Ltd., inaugurated this building programme with the object of operating the vessels out of British Columbia ports, and this plan will be followed out. As far as possible the vessels will be kept on the Pacific, but good charters for lumber to South Africa are available, and coal at profitable freights can be secured from South Africa to Buenos Ayres, Rio de Janeiro and other South America ports. From South America the ships would be in a position to secure cargoes of the products of those countries to bring them back to their home port.

This means that the vessels will be earning good freights throughout the round trip, and after a few voyages would pay for the cost of construction.

Captain Hansen is an old sailing master who secured command of his first ship in 1891, and subsequently for twelve years was in the steam service.

"Force of circumstances drove me to tackle sail again," the captain remarked. "I saw a good thing in it, and grasped the opportunity."

Captain Hansen now owns five sailing vessels, which are more than making good on the trading routes of the world.

Move to Establish Conciliation Board

Industrial Disputes Act May Be Invoked With Object of Bringing About Settlement of Seamen's Strike in British Columbia Waters.

Vancouver, May 7.—With the termination of the forty-eight-hour notice given local coastwise steamship companies by union employees the shipping, tie-up which threatens to be a repetition of that of two years ago, came into effect to-day. One by one vessels are being tied up to wharves and deserted by crews, and it is only by special agreements with shipowners that any ships, with the exception of the Victoria and Seattle ferries, are getting away. Formal move was made this morning by Federal authorities to establish a conciliation board and maintain uninterrupted service pending a settlement of the differences at issue.

On instruction from Ottawa, D. T. Bulger, fair wage officer, who was communicated with by Hon. Gideon Robertson, Federal Minister of Labor, is making a strong effort to establish a conciliation board under the Industrial Disputes Act. The Seamen's Union will consider his proposal to-day.

"We anticipate no interruption on the triangular or trans-Gulf service," said James MacGown, superintendent of the British Columbia Coast Service. He said that with the exception of the Princess Beatrice, which was taken to Victoria yesterday to be laid up, all of his company's boats are running and it is expected that those men who have signed agreements will stand by them.

G. T. P. Sailings. The Grand Trunk Pacific Steamship Company announced this morning that arrangements have been made to get the steamer Prince George away for Prince Rupert and Stewart to-night. Although the forty-eight-hour notice was up, Captain H. Nicholson, manager of the company, was successful in his negotiations with the crew of the George and they promised to make a round trip with the vessel before they tie her up. It is not known what action the crew of the Prince Albert, slated to sail for the Queen Charlotte Islands to-night, will take. The steamer Prince Rupert will arrive on Saturday and the company will make a strenuous effort to get her away on her regular trip Monday night.

E. H. Beazley, manager of the Union Steamship Company, announced that the steamer Chelohin will sail for Prince Rupert and Alice Arm to-night. The steamers Chilliwack, Coquitlam and Cassiar have already sailed and their crews have scattered about. Mr. Beazley stated that he will tie his vessels up and make little effort to operate them if the men refuse duty.

It is explained by both Captain Nicholson and Mr. Beazley, heads of the Grand Trunk Pacific Steamship Company and Union Steamship Company, respectively, that they are quite willing to meet committees representing their own employees acting through officials of the unions involved. The seamen take the stand that they have selected their own committees for negotiations and these committees must be recognized. It is somewhat different with the men who agree to meet the employers, provided the secretary of the union is admitted to the conference. There is little of the wage question entering into the situation, that of recognition of unions and collective bargaining being the main bone of contention. The men insist that contracts be signed between the companies and the unions and not between the companies and crews.

Suggests Formation of Shipyard Commission

Dominion Minister of Labor Takes Action to Bring About Settlement of Wage and Employment Difficulties at Cholberg Plant.

Gideon D. Robertson, Minister of Labor, has authorized the formation of a commission representative of all sides and vested with power to draft wage scales and working conditions for the employees of the Cholberg shipyard here.

J. D. McNeven, Deputy Minister of Labor for British Columbia; E. B. McLeod, Victoria representative of the S. C. R.; James Dakers, as delegate from the Metal Trades Unions, and D. T. Bulger, Dominion fair wage officer, will likely form the personnel of the commission.

The Dominion Minister of Labor suggests that the proposed draft be patterned along the lines of the Robertson agreement which applied to various British Columbia shipyards. In the event of the new commission being unable to agree on the question to be debated, the joint recommendations will be forwarded to Ottawa where the Government will finally settle the schedule.

The proposed commission, it is believed, will solve the difficulties concerning wage scales and employment conditions, intervening since the inauguration of the contract for the construction of four 2,400-ton wooden barquentines.

ARABIA MARU HAD SPLENDID PASSAGE

Capt. Saito Declares It the Best He Has Yet Experienced

"There must be thousands of men like myself who returned from overseas broken down in health, and I'm making this statement to let such men especially know that it was Tanlac which put me into good shape again," said Fred J. Brown, of 79th Avenue, Edmonton, Alberta, when at the Owl Drug Store recently.

"I was badly gassed at the battle of Vimy Ridge, and my nerves were entirely shattered. At times I couldn't even speak, and the least noise would make me jump as though I had been shot. Some days I was almost frantic and couldn't keep still for two minutes. I shook from head to foot, and was at my wits end to know how to control myself. I had the most terrible nervous headaches, and the pain would nearly blind me and fill my eyes with tears. I couldn't sleep at nights, but would twist and toss for hours, and even when I did sleep I would wake up again within a couple of hours. I had little or no appetite; many a time I've sat down to the table, but couldn't eat a bite, and even when I did eat anything my food would sour and form gas that swelled me up and caused me pain and distress."

"I saw by the papers that so many people were getting good from Tanlac, and so I gave it a trial. I've taken nine bottles of it, and I feel better than I have in many months. I am out of my fear of indigestion or gas afterwards. It built me up fine, and my nerves got steady, and I became more like my old self every day. I've anything but the stage where ordinary noise startle me, and I no longer jump at unusual sounds. I scarcely ever have a headache now; I sleep well at nights and get up in the morning feeling red and refreshed. Tanlac has surely proved to be a great blessing in my case, and I gladly recommend it to others."

Tanlac is sold in Victoria by D. E. Campbell, corner Fort and Douglas, and Lang's Drug Store, Esquimalt Road.

BREAD DELIVERY TO START MONDAY

Master Bakers Declare Production Back to Normal, Without Strikers' Aid

House to house deliveries of bread will be resumed Monday, the three leading bakers announced this afternoon.

Bread production in Victoria is up to normal to-day and it is only a matter of getting production systematized during the next two days so that domestic delivery work will

be undertaken, the master bakers explain.

"We are now producing all the bread that is required," said Secretary Amphet for the amalgamated bakers this afternoon. "It is done under a strain, of course, and will with the expenditure of much energy to get our business going again after having it suddenly disorganized."

While the master bakers have been breaking in new hands and daily increasing their output and getting their production and distribution forces organized, the striking bakers have been becoming more apprehensive over the success of their "holiday."

The master bakers refuse to make any statement as to whether they will ever take back any individual strikers, but they are firm in their declarations that they will have nothing but the open shop and no more to do with the organization headed by Harry Jacque.

Developments during the last couple of days have left the striking bakers dumb. They have been holding consultations, but have made no announcement of their intentions or plans, now that their jobs are being filled and bread production is almost back to normal without their services.

Fifteen volumes of comic stories and thirty-seven comic operas and musical comedies and still going strong—that is the record of achievement of George V. Hobart, author of "What's Your Husband Doing?" the motion picture in which Doris May and Douglas MacLean, the new Thomas H. Ince starring team, will appear at the Dominion theatre all week.

Mr. Hobart is a Canadian and, like many another author, broke into the writing game through the newspaper business. While on a Baltimore paper he originated the well-known "Dinkelspiel" stories and also a series of humorous tales which he signed by the pseudonym of "John Henry." Branching out into drama, Mr. Hobart wrote such well-known productions as "The Ham Tree," "Alma, Where Do You Live?" "The Candy Ship," and the Zeigfeld Follies for

six different years. He was co-author of "Wildfire" and of "Our Mrs. McChesney," the latter a comedy for Ethel Barrymore.
"What's Your Husband Doing?" is perhaps the best known of his farces and was produced with fine success on Broadway.
"Captain Kidd's Kids," the second of the \$100,000 two-reelers, hits the bull's eye. It boasts a real plot embellished with scores of beautiful girls who make the most delectable pirates you ever saw, a riot of comedy action, and comedy titles that only H. M. Walker knows how to write.

boy who celebrated well, but unwisely, on the eve of his wedding day. Bebe Daniels is the girl who is taken by her mother to the Canary Islands to forget. Harry Pollard is Lloyd's valet, and a bevy of blondes, brunettes and salmon pinks are the pirates who figure conspicuously and pulchritudiously in the plot.
The Dominion theatre announces that "Capt. Kidd's Kids," will be shown there all this week.

VARIETY

Raising a family of kids isn't the easiest thing for a boy who has been an orphan since he was a lad himself. Such is the conclusion of Chas. Ray in interpreting the character of Ben Trumble in "Thomas H. Ince's" latest photoplay, "Crooked Straight," which is at the Variety Theatre as a Paramount-Artcraft offering. In this character Mr. Ray has to teach a bunch of youngsters how to wash their faces and take in the cars, how to comb their hair and put their clothes on. When it comes to cutting a boy's hair Mr. Ray has opportunity for a lot of his clever comedy. Some bright youngsters were picked out to play with Mr. Ray in this story, and the little lifelike episodes dominated the star and his kids are expected to give a wonderful touch to the picture.

COLUMBIA

Does a woman lie when she loves? She certainly does, and Norma Talmadge proves it in "She Loves and Lies," a Select special in which the popular star is appearing at the Columbia Theatre this week. True, Miss Talmadge has a good excuse for her fibs, for she must win a fortune and in order to do this she must marry a man, while she is masquerading as a woman of fifty-two, who happens to be the man she really loves and he really believes she is the age she represents. Some task, but Miss Talmadge is so versatile that she not only makes the aged woman convincingly lovely, but compels her youthful husband to become so wrapped up in her that when he has a chance to escape what to some would prove a distasteful marriage, he will not let her go. Then comes the surprise when the young man finds out that his bride is a girl full of the buoyancy of youth and the joy of living.

PANTAGES

Cats—Angora and Alley—and an assorted collection of rats, furnish the novelty of the bill of Pantages vaudeville this week. This fact has interest and originality combined in generous proportion and will make a big attraction for the kiddies who

may attend the matinee performance of to-morrow. The rats play when the cats aren't away. The cats do seemingly impossible feats for these animals and the finale is especially good, one cat hesitating as long over a big leap as the average comedian does over the piled up tables.
The Japanese revue is one of the most artistic offerings to visit Pantages. This act is attractively gowned, the settings are beautiful and the girls sing and dance. Harry Girard furnishes the feature attraction of the bill with the presentation of a musical love and romantic story of the Northland.

VICTORIA'S OWN CIRCUS POPULAR

Buller's Trained Animal Show
Opened Performances
Yesterday

Robert W. Buller's Trained Animal Shows started their series of four performances at the new Stadium grounds yesterday afternoon at 4 o'clock. Another performance was given last evening, and shows tomorrow at 4 p. m. and 8 p. m., the afternoon hour being set to allow of school children attending after school hours. Under the big canvas on the stadium grounds one hundred of the highest trained animals performed, and there was also a good circus programme, clowns, and all that goes with a circus.

On this, its second season's tour, Buller's Dog and Pony Show comes with a bigger and better programme. The cast include some new ones of a class which have never before been attempted in shows of the kind. For instance, there is one in which four large Kentucky horses appear without riders in a big High School mane act on which Mr. M. Carrigan, the master trainer spent considerable time in educating the thoroughbreds. There are big ensemble acts in which a great flock of ponies, snow-white, spotted, black and grey, appear; pedestal numbers, drills, a clever pony which walks a tight rope, clown ponies, leaping hounds, a diving dog which has the record for canine high divers, performing dogs who offer some entertaining diversions, riding monkeys—a big troupe of trained animals which offer a clean, wholesome and entertaining performance for young and old. The circus programme includes some notable performers of the sawdust ring who offer aerial trapeze acts, acrobatic, wire walking and other acts. The band is composed of returned members of C. E. F. bands.
The crowd at each performance demonstrated the popularity of Victoria's own circus.

HENRI SCOTT IS A LEADING ATTRACTION

The Orpheum Will Present
Big Star of
Metropolitan

Smart farce is one of the things, when produced properly that is likely to never die and the two a day shows such as those of Mason and Marguerite Keeler for their work along this line. As a headline attraction sharing honors at the Orpheum to-night, Saturday matinee and night, the sketchy "Married," promises much for Orpheum devotees. The vehicle which Mason and Keeler present is written by Porter Emerson Browne. It is a playlet of high type and is so played. It is not too often that the big stars of the Metropolitan make their way west and when it is announced that Henri Scott, noted bass baritone will appear here on this bill next week, the statement will come as a glad surprise to many music lovers. He is one of the most eminent singers that the North American continent has produced. His name is so well known in Grand Opera that introductions are superfluous.
A piano is just what the player makes it or makes of it. Ned Norworth is positive that its real purpose is comedy and he will display this idea in a manner thoroughly likable. Mr. Norworth is a composer as well. He is assisted by Evelyn Wells at the piano and this couple will provide much entertainment on this bill.
The latest dancing star to come out of the great west is Beth Beri, a Californian, assisted by Jay Velle and Paul O'Neill. Here is a new act with music and lyrics written by Lee David and the whole under the direction of Rosalie Stewart. There are six different numbers to the programme, each a gem in its own setting.
An artist is Rudinoff, celebrated in France as the originator of smoke-painting. He is also the originator of the whistling act, called "The Courtship of a Nightingale." Rudinoff's act has been described in eastern reviews as being the most unique and original offering seen in the two a day for the season.
Comes a musical stew, which like hash is a combination of ingredients. The Rosellas dish up this stew in a manner long to be remembered. They are talented and versatile. They play the violin, saxophone, bassoon and harp. Miss Rosella also sings and Mr. Rosella is a clever eccentric comedian.
Stewart and Mercer will be seen in their latest comedy aerial surprise. Comedy and daring crowd each other for the first place with this act. The girl in the case devotes her entire time to super gymnastic achievements. The man, aside from being an athlete also is a funster.
The bill will close with the picture section of the programme and an orchestral offering.

"George proposed to me last night," "Did you accept him?" "Of course I did. Any man who would propose now, with the cost of living where it is, must love a girl a lot!"

BEWARE OF DECEPTION

Statistics show that when egg albumen is used as a constituent of baking powder, the amount so used is too small (usually 15/100 of 1%) to affect the quality or effectiveness of the baking powder containing it, and when so used, is plainly for the purpose of fraud. Intelligent buyers will not permit themselves to be deceived by the water glass test.

MME. DESCHANEL NOT TO WEAR AMERICAN HAT WORTH \$5,000

New York, May 7.—President Deschanel, of France, has refused to permit Madame Deschanel to accept the \$5,000 hat offered her by 3,000 American milliners. The hat was made from material supplied by each of the forty-eight states and decorated with nine paradise plumes, each costing \$500.

"Fourteen points" explaining why the wife of the French President should not accept the gift were called to the Millinery Jobbers' Association,

In session here yesterday. Some of the points are:
Bad precedent. Paris only style centre. The United States took advantage of Paris during the war. Americans dangerously resourceful. Paris never produced so expensive a hat as \$5,000. As big a novelty as the Eiffel Tower. Such a gift is like carrying coal to Newcastle. The

United States should not give away what it will not buy—Paradise. The United States has no artistic atmosphere—nothing but colossal wealth. Rate of exchange gives the United States unfair advantage over Paris creators.

Does Comfort and Convenience
mean anything to you? Then read this. We offer this 7-room bungalow, of most artistic design, at less than TWO-THIRDS of its actual value. It is practically new and was built by an architect whose specialty was bungalow and artistic design, coupled with convenience and comfort, and he built well. This house is as sound to-day as it was when built. The downstairs floor consists of hall, parlour, built-in, with woodlift for fireplace. Parlor or reception room is plain. Living room connects with hall by sliding doors, wide fireplace, bookcase, etc. Dining room, with buffet and plate rails. All rooms with very fine windows, entry and well lighted. The kitchen, with woodlift, cupboards, sink, etc., is a model of convenience. Three bedrooms and bathroom upstairs. While there are two fruit trees in full bearing, the lot is small and of no use for anything. It is especially suited for those who want a well-detailed house in a fine neighborhood. Call at the office for further details.

6-ROOMED COTTAGE, close in, 1/4 mile circle; \$2,400, terms.
FOR RENT—Small store, 1049 North Park Street, plate glass front, open fireplace; \$10 per month.

APPLICATIONS READY FOR OFFICIAL ACTION

Important Projects Will Be Considered by Department of Industries

Quite a number of important applications for loans under the British Columbia Industrial Act will be considered at the next meeting of the Advisory Council when it takes place on Friday next.

It is also understood that the special committee appointed by the Council to collect information relative to the establishment in British Columbia of an iron and steel industry has made very considerable progress in its investigations.

Major Martyn, J. H. McVety and Nicol Thompson comprise the personnel of the committee, and already its activities have embraced visits to various steel plants and experimental establishments across the border.

It is not expected, however, that any report will be presented either to the Council or the Government until a more thorough investigation has been made.

TECHNICAL COURSE
OUTLINED TO BOARD
Manual Training Supervisor
to Study Methods in Other
Cities

In order that we might have the benefit of other experts' experience in drawing up the curriculum of the new technical school, W. H. Binns, supervisor of manual training and director of technical education in the city schools, was instructed by the School Board last night to make a tour of the Northwest cities, visit the various vocational training institutions and study their methods.

Mr. Binns last night outlined to the Board a four-year technical course in the following memorandum:

Ordinary High School Course—Manual training and domestic science first two years (half day).

Commercial Course—Manual training and domestic science (half day). Agricultural Course—Wood and metal (half day); gas engines (one evening per week).

Technical Course—High school entrance standing; mechanical and electrical engineering; one language to University; applied science matriculation (evening school).

Industrial Course, for boys and young men 13 to 16—Three years, no languages or French, High School entrance and junior 4th standing. Electrical work should be taken at evening school one evening.

Industrial Course, for girls and young women 13 to 16—Three years, no languages or French, High School entrance and junior 4th standing. Part-time Courses—To be taken from 4 p. m. to 6 p. m. or held at stores. Forms to be filled in by principal of school. Co-operation with Provincial Labor Bureau should be provided; visits to principal of school commence this term. "Store education" should be the chief feature of Victoria in this respect.

Evening Schools—Correlation and grouping of allied subjects should be arranged.

Survey of Occupations of city using our schools should fill up printed questionnaire; also High School prospectus of above-mentioned courses and evening school syllabus should be taken up as soon as possible.

Technical Committee of the Board with advisory committee (Board of Trade, Trades and Labor Council, etc.) should be appointed.

CADBORO BAY AND WATER SERVICE
Saanich Council Favors Connection With Uplands Main

Two alternatives for the Cadboro Bay were submitted to the Saanich Council last evening by Engineer Milne, as follows:

First—By installation of a pump at the Giant Powder Co.'s spring at a cost of \$700, with \$200 for transfer of water rights.

Second—By making a connection with a six-inch main in Uplands subdivision. There is a fifty-five-pound pressure which would be sufficient for the requirements the length of a two-inch line to connect with the existing three-inch main would be about 1,700 lineal feet, and would cost approximately \$450, according to the engineer. In this connection arrangements would require to be made with the Uplands people. A motor would be required for pumping, costing \$12 a month.

A letter was also read from Stuart Armour, proprietor of the Cadboro Beach Hotel, asking for a better water supply.

The Engineer was director to confer with owners in the district, and to look into the Uplands service as being considered the more feasible of the alternatives.
